West:	Public Use District - Medium Density Residential District
PUBLIC UTILITIES	City Water/Sewer
DATE OF APPLICATION	2/25/2008
REVIEWED BY	Jared Ball / Ted Johnson

RECOMMENDATION:

Staff will recommend that the SDCL 11-6-19 Review to allow the construction of a sign on public property be continued to the October 23, 2008 planning Commission meeting.

GENERAL COMMENTS: (Update: September 29, 2008. All revised and/or added text is shown in bold.) This item was continued at the September 25, 2008 Planning Commission meeting because the Flood Plain Development Permit was incorrectly electronically linked to the agenda. After further reviewing the information that has been submitted, staff has determined that all of the required information has not been submitted. As such, staff recommends that the SDCL 11-6-19 Review to allow the construction of a sign on public property be continued to the October 23, 2008 Planning Commission meeting.

STAFF REPORT
October 9, 2008

No. 08SR018 - SDCL 11-6-19 Review to allow the construction of a sign on public property **ITEM 43**

This is a request by the City of Rapid City- Parks Division for approval to construct an identification sign on public land pursuant to the requirements of an 11-6-19 SDCL. The property is located in the Flood Hazard Zoning District and the Park Forest Zoning District at Jackson Park north of Jackson Boulevard between Soo San Drive and Sheridan Lake Drive. The applicant is proposing to replace the existing sign with an 8 foot x 4 foot identification sign that is 5 feet 6 inches tall and reads "Welcome to Jackson Park". **The sign will be located at the northwest corner of the intersection of the entrance to the Jackson Park parking lot and Jackson Boulevard.**

South Dakota Codified Law 11-6-19 states that "whenever any such municipal council shall have adopted the comprehensive plan of the municipality or any part thereof, then and thenceforth, no street, park, or other public way, ground, place, space, no public building or structure, no public utility, whether publicly or privately owned, if covered by the comprehensive plan or any adopted part thereof, shall be constructed or authorized in the municipality or within its subdivision jurisdiction as defined in § 11- 6-26, until and unless the location and extent thereof shall have been submitted to and approved by the Planning Commission". The proposed ground sign is being constructed on public property and the property is identified as being located within the area covered by the Rapid City Comprehensive Plan requiring that the improvements be reviewed and approved by the Rapid City Planning Commission.

STAFF REVIEW:

The applicant has submitted a site plan identifying the proposed sign location. The submitted site plan is not drawn to scale and does not identify other features on the property such as existing signs, utility locations, existing structures, and other features located on-site. Staff has concerns that utilities and irrigation lines may be potentially damaged during the installation of the proposed sign. Further, the sign may be located in a sight triangle. Staff recommends that the applicant submit a revised site plan that is drawn to scale and identifies all existing utilities, existing signs, existing structures, irrigation lines as well as any drainage/utility easements if applicable.

In addition, because of spacing requirements in regard to ground mounted signs the applicant's site plan must identify any existing signs located on the property. Furthermore, a detailed site plan drawn to scale is needed to ensure that the proper setback for the sign is being provided. On September 12, 2008 the obtained a Flood Plain Development Permit.

Site Plan: A complete site plan was not submitted with this application. Prior to Planning Commission approval, the applicant must submit a complete site plan. The site plan must be drawn to scale and include all other existing signs, structures, utilities and irrigation lines for the property surrounding the proposed sign including access drives and adjacent streets.

Site Triangle: The applicant has not provided adequate information demonstrating that the sign is located outside of the site distance triangle. Prior to Planning Commission approval, the applicant must submit a sight plan drawn to scale demonstrating that the proposed sign will not be located within the sight distance

triangle.

Flood Plain: The proposed sign is located within the 100 year Federally Designated Flood Plain; therefore, a Flood Plain Development Permit is required. On September 12, 2008 a Flood Plain Development Permit was approved for the proposed sign.

The City of Rapid City adopted an updated Rapid Creek Flood Plain Policy on July 7, 2008. The proposed sign, replacing the existing sign appears to be in compliance with the adopted Rapid Creek Flood Plain Policy.

Lighting: The applicant has not identified any lighting for the proposed sign. The applicant should be aware that the addition of lighting to the sign will require an SDCL 11-6-19 Review.

Staff recommends that the SDCL 11-6-19 Review to allow the construction of a sign on public property be continued to the October 23, 2008 Planning Commission meeting.
