submit additional required information. As of this writing, no additional information has been submitted.

The property is located at 514 City Springs Road. The property is the current location of Wilderness Park. The property is currently zoned Low Density Residential. The adjacent properties to the north, east and west are all currently zoned Low Density Residential District. The adjacent property to the south is currently zoned Low Density Residential District with a Planned Residential Development. The applicant is proposing to renovate the existing playground located at the south end of the property. The applicant has submitted a Site Plan for the property. However, the plan does not show all of the structures on the property or the proposed parking for the property. In addition, the Site Plan does not identify the Flood Plain.

As such, staff recommends that the SDCL 11-6-19 Review to allow structures in a public park be continued to the **December 4, 2008** Planning Commission meeting to allow the applicant to submit a complete Site Plan, a complete Parking Plan and to identify the Federally Designated Flood Plain.

South Dakota Codified Law 11-6-19 states that “whenever any such municipal council shall have adopted the comprehensive plan of the municipality or any part thereof, then and thenceforth, no street, park, or other public way, ground, place, space, no public building or structure, no public utility, whether publicly or privately owned, if covered by the comprehensive plan or any adopted part thereof, shall be constructed or authorized in the municipality or within its subdivision jurisdiction as defined in § 11- 6-26, until and unless the location and extent thereof shall have been submitted to and approved by the Planning Commission”. The proposed location for the playground is located within the area covered by the Rapid City Comprehensive Plan requiring that the improvements be reviewed and approved by the Rapid City Planning Commission.

**STAFF REVIEW:** Staff has reviewed the SDCL 11-6-19 Review to all structures in a public park and noted the following considerations:

**Site Plan:** A complete site plan was not submitted for this project. In order for staff to adequately review the project, the applicant must submit a complete site plan for the property. The site plan must include all existing and proposed structures located on the property and existing utilities. In addition, the applicant must identify the boundaries of the flood plain on the site plan. As such, staff recommends that the SDCL 11-6-19 Review be continued to the **December 4, 2008** Planning Commission meeting to allow the applicant to submit a complete site plan drawn to scale.

**Parking Plan:** A complete parking plan was not submitted for this project. In order for staff to make a complete review of this project, the applicant must submit a complete parking plan for review and approval. As such, staff recommends that the SDCL 11-6-119 Review to allow structures in a public park be continued to the **December 4, 2008** Planning Commission meeting to allow the applicant to submit a complete parking plan drawn to scale.

---

Flood Plain Development Permit: The proposed location for the playground appears to be located in the 100 year Federally Designated Flood Plain and will require that the applicant obtain a Flood Plain Development Permit. As such, staff recommends that the SDCL 11-6-19 Review to allow structures in a public park be continued to the **December 4, 2008** Planning Commission meeting to allow the applicant to obtain a Flood Plain Development Permit.

Staff recommends that the SDCL 11-6-19 Review to allow a structure in a public park be continued to the **December 4, 2008** Planning Commission meeting to allow the applicant to submit a complete site plan, a complete parking plan and to obtain a Flood Plain Development Permit.
