Growth Management Department  
300 Sixth St.  
Rapid City, So. Dak. 57701

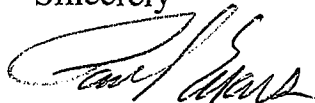

File Number: 08SR063

I am writing to object to the telecommunication tower and request that the Rapid City Planning Commission reject the tower. There is currently a tower on the property owned by Duffield Construction 3060 N Haines Ave. At the time when this tower was in the same process, I objected to the tower. I objected on the basis of it being an eyesore. The people who built the tower said they would do everything possible to make it less objectionable. They said they would paint the tower so it would blend in with the sky and not have all the things attached all over the tower. Blaze Emerson former Rapid City Planning Department employee who is no longer with the City was there when they made those statements. If you drive out there and inspect the tower you can see that everything they said was never done.

I am also objecting because one ugly tower is enough. We don't need any more eyesores out there. All this tower is going to do is decrease the property values of the surrounding property.

McMahon Inv. Inc. owns the land in Sec. 24, T2N, R7E, BHM Pennington County, behind and in front of 3036 Haines Ave.

Sincerely

Paul Evans
