Re: Dale Aviation Retention Tank

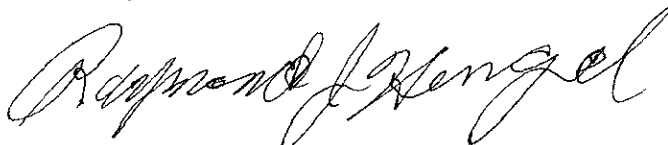

Dear Mr. Florentz:

Enclosed are drawings of the Fuel Tank Containment Structure and Wall Sections. The structure will be located at the northwest end of the buildings at the Rapid City Regional Airport. It will contain three new 11 foot diameter tanks containing jet fuel and aviation gasoline. ~~Each tank~~ <sup>ONE TANK</sup> contains approximately 12,000 gallons and is approximately 16.89 feet high. *2 TANKS @ 10,500 GAL. AND 14 FT. HIGH*

*JD*

If additional information is desired, please contact me.

Sincerely,

Raymond J. Hengel
