No. 08SV057 - Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk, street light conduit, water and sewer along Sturgis Road as per Chapter 16.16 of the Rapid City Municipal Code

ITEM 25

REVIEWED BY

Travis Tegethoff / Ted Johnson

RECOMMENDATION:

Staff recommends that the Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk, street light conduit, water and sewer along Sturgis Road as per Chapter 16.16 of the Rapid City Municipal Code be continued to the February 5, 2009 Planning Commission meeting to be heard in conjunction with the associated Preliminary Plat.

GENERAL COMMENTS: The applicant has submitted a Variance to the Subdivision Regulations to waive the requirement to install pavement, curb, gutter, sidewalk, street light conduit, water, and sewer along Sturgis Road. The property is located west of Sturgis Road. Currently the property is being used for surface mining operations. Two accessory buildings associated with the mining operations, a conveyor belt system, and a portion of a former dog racing track are located on the property. The property is not located within the municipal limits of the City of Rapid City; however, the property is located within the City of Rapid City's Three Mile Platting Jurisdiction. A Preliminary Plat (#08PL176) application to reconfigure two existing lots as Lot 1 and Lot 2 of Keller Subdivision has been submitted in conjunction with this request. The property is currently zoned Heavy Industrial District by Pennington County.

STAFF REVIEW:

Staff has reviewed the Variance to the Subdivision Regulations request and has noted the following considerations:

Sturgis Road: The property abuts Sturgis Road on the eastern boundary. Sturgis Road is classified by the Major Street Plan as a principal arterial street requiring a minimum 100 feet of right-of-way and a minimum 12 feet per lane of pavement width. Sturgis Road where it abuts the property currently has a right-of-way width of 130 feet, and a pavement width of 38 feet for three lanes. Currently Sturgis road meets the right-of-way width and pavement requirements for an arterial street.

Curb, gutter, sidewalk, street light conduit, water and the sewer are not currently constructed along Sturgis Road where it abuts the property. Prior to approval by City Council, the applicant is required to submit construction plans designed and stamped by a Registered Professional Engineer identifying curb, gutter, sidewalk, street light conduit, water and sewer along Sturgis Road, or obtain a Variance to the Subdivision Regulations.

The applicant's plat document identifies two approach locations along Sturgis Road. However, the South Dakota Department of Transportation has noted that south approach shall be vacated when mining activities on the property cease. This will result in a platted lot with no legal access in the future. As such, staff recommends that this item be continued to the February 5, 2009 Planning Commission meeting to allow the applicant to address access issues to the proposed lot.
