---

attach three antennas within the existing flagpole communication tower currently located on the property and to place four cabinets adjacent to the tower. Each cabinet will measure 30 inches deep by 31 inches wide by 77 inches high. The applicant has indicated that additional fencing will be constructed around the cabinets to match the existing 8 foot high cedar fence currently located around the tower and the existing equipment shelters.

On September 25, 2003, the Planning Commission approved a Major Amendment to a Planned Residential Development (File #03PD043) to allow a residence and a photography studio as a Major Home Occupation on the property.

On April 16, 2007, the City Council approved a Major Amendment to the Planned Residential Development (File #06PD097) to allow the construction of a 150 foot tall flagpole communication tower with an equipment shelter for Verizon Wireless in conjunction with the previously approved residence with a photography studio on the above legally described property. The proposed additional antennas and cabinets submitted as a part of this application will be located within the lease area that the property owner has previously entered into with Verizon Wireless.

On August 21, 2008, the Planning Commission approved a Major Amendment to the Planned Residential Development (File #08PD022) to allow additional communication antennas for Alltel Communications, LLC to be constructed within the existing flagpole communication tower located on the property. In addition, an 11 foot 5 inch by 16 foot equipment shelter was approved to be constructed west of the existing equipment shelter currently located on the property.

The property is located northwest of the intersection of Chapel Valley Road and Jackson Boulevard. Currently, the old Johnson Siding Volunteer Fire Department structure is located on the southern portion of the property. In addition, Verizon Wireless has constructed the previously approved flagpole communication tower with an equipment shelter within the northern portion of the property. Alltel Communications, LLC has also co-located on the tower and constructed an equipment shelter west of the Verizon Wireless shelter.

**STAFF REVIEW:** On April 27, 2009, the applicant requested that this item be continued to the May 21, 2009 Planning Commission meeting to allow them to address outstanding issues. As such, staff recommends that the Major Amendment to the Planned Residential Development be continued to the May 21, 2009 Planning Commission meeting at the applicant's request.

**Notification Requirement:** As of this writing, the receipts from the certified mailings have not been returned nor has the sign been posted on the property. Staff will notify the Planning Commission at the May 7, 2009 Planning Commission meeting if these requirements have not been met.
