RE: *Application for 11-6-19 review (Clarkson Mt View Health Care)*

This application is for a permanent utility easement for existing and new power cable located on Lot 1, Lot 2, and Tract 10A.

The Clarkson Mt View Health Care facility at 1015 Mt View Road is adding an addition to the existing building. Black Hills Power has an existing underground cable that is in the way of the new addition. Black Hills Power has de-energized this section of the underground cable to allow construction to move forward. During this process we have learned that we do not have a documented right-of-way for the existing cable. The existing cable has been in use for approximately 30 years.

The attached site plan identifies the location of the underground facilities. We are requesting that the application be approved for the following:

- Approve location of the existing cable
- Approve the location of the reroute around the new addition
- Approve the location of the new underground extension to serve the health care facility

Thank you,
