Re: **Statement of Intent** to accompany SDCL §11-6-19 Review Application (copy attached)

Dear Vicki,

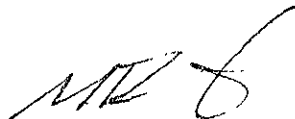

J&J Truck and Auto Body is currently hauling water to a cistern and disposing of sanitary sewer via an on-site sanitary sewer system which is failing. The area was recently annexed by the City of Rapid City.

The project will extend the existing municipal sanitary sewer service onto the parcel to allow connection of a new 6" sanitary sewer service from J&J Truck and Auto Body's facilities.

The work involves construction of approximately 150' of 8" sanitary sewer main and one additional sanitary manhole. The sanitary sewer extension will occupy a sewer main easement.

Please feel free to call or e-mail if additional information is needed.

Sincerely,

Renner and Associates, LLC
Mitchell B. Kertzman, PE
