### INDEX OF SHEETS

- C1 Title Sheet
- C2 Site Plan
- C3 Grading Drainage
- C4 Cross Sections
- C5 Layout Data
- C6 Paving Plan
- C7 Erosion & Sediment Control Narrative
- C8 Erosion & Sediment Control Plan

### STORMWATER POLLUTION PREVENTION PLAN

The elements of the SWPP are identified on Sheets 7 and 8 of these plans. Placement of the improvements shown hereon within the Floodway and in proximity to Rapid Creek shall constitute the primary considerations concerning stormwater pollution prevention. Excavation spoils are to be removed immediately and placed permanently off-site. Erosion and sediment control measures (compost filter socks, temporary sediment basin, etc. shall be vigorously maintained due to the aforementioned considerations.

### GENERAL NOTES

Project consists of the removal of one foot of existing soil, and the placement of 6 inches of base course and 6 inches of reinforced concrete. Spoils removed for construction shall be disposed of off-site. Other specifications for the PCC pavement (including stain treatments) are shown elsewhere on these plans.

All work shall be in accordance with the City of Rapid City Standard Specifications for Public Works Construction (2007).

All work shall be in accordance with the City of Rapid City Stormwater Quality Manual (November 2007).

Contractor shall be responsible for all permit acquisition, and permit compliance.

Contractor shall prepare and submit a traffic control plan prior to commencement of work within the right-of-way.

All signage and traffic control measures within the right-of-way shall be in conformance with the MUTCD (current edition).
