

Harley Davidson Road Show – July 28, 2009 thru August 10, 2009

(includes move in and set up and tear down days)

The Harley Davidson Road Show event will consist of everything out in the west parking lots of C and D surrounding the Energy Plant. The HOG pin registration will stay inside in the north concourse of the Civic Center and the Food Court inside will also be open.

Motorcycle Parking will be in the two north lots A&B and across 8th Street at Central High School.

There will be various sizes of tents to house parts and accessories, clothes, motorcycles, and other products that corporate partners may have. The Civic Center will be selling beer inside the building and also outside in the beer tent on the south side of the Energy Plant. ID checkers and security will be stationed at the beer locations and will also be roving through the facility and outside parking lots.

Traffic will enter thru the south entrance into the complex. Demo riders and bike wash participants will exit this south entrance. All bikes that use the north parking lots will exit the center exit across from Central High School and will take a right turn only.

The Civic Center will have traffic control flaggers at both of these exits/entrances directing traffic flow and we will also be manning the cross walk across 8th Street.
