Date: July 10, 2009

Canyon Lake United Methodist Church proposes to construct a new public water main in Evergreen Drive and Canyon Lake Drive. The new 8-inch main will connect to an existing 10-inch main (Canyon Lake High-Level Zone) in Evergreen Drive approximately 300 feet south of the Canyon Lake Drive intersection. The new main will extend north in Evergreen Drive to Canyon Lake Drive, then cross Canyon Lake Drive to the Canyon Lake United Methodist Church property at 3500 Canyon Lake Drive. The new main will continue north approximately 400 feet on the church site and terminate in an on-site fire hydrant.

The proposed water main will provide domestic service to the existing church and a proposed new building referred to as the "Family Life Center". The main will provide fire service to the new building fire sprinkler system. The on-site hydrant will provide fire protection service to the new and existing church structures.
