#09CA024) and rezoning applications (#09RZ038, #09RZ039, #09RZ040 and #09RZ041) to change the comprehensive plan and zoning designations to Public.

The property is located south of Dean Lane approximately 200 feet west of Sturgis Road. The property will be a part of the proposed South Dakota Game, Fish and Parks Outdoor Campus West. The site will be used for offices, vehicle repair and maintenance, vehicle storage, equipment storage, outdoor campus and educational classrooms. This portion of the site will be used for vehicle repair and maintenance, vehicle storage and equipment storage.

STAFF REVIEW: The Adopted Comprehensive Plan is a framework within which development and rezoning proposals are measured and evaluated. The plan is intended to guide the orderly growth of the community. In order for the plans to remain viable and to keep pace with a changing market place, periodic adjustments to reflect changing conditions are required.

The Future Land Use Committee has reviewed this proposed Comprehensive Plan Amendment for conformance with the six criteria for review of Comprehensive Plan Amendments established in Section 2.60.160(D). A summary of the Future Land Use Committee's findings are outlined below:

1. *Whether the proposed change is consistent with the policies and overall intent of the comprehensive plan.*

One of the goals of any Future Land Use Plan is to encourage in-fill development and full utilization of properties currently served by infrastructure. The Public designation provides for facilities that serve the general public and are sited with public safety and government efficiency in mind. This proposed change is consistent with the intent of the City's Comprehensive Plan goal to encourage in-fill development and connect existing public services through interagency cooperation.

2. *Whether the proposed change is warranted by changed conditions within the neighborhood surrounding and including the subject property.*

No changing condition has been identified.

3. *Whether and the extent to which the proposed amendment is compatible with existing and proposed uses surrounding the subject land.*

Land located north of this site is zoned Mining and Earth Resources Extraction District. Land located west and south is zoned Low Density Residential District. Land east is zoned General Commercial District. The proposed amendment is part of a larger plan to create an integrated public facility. Depending on the specific manner in which the uses are laid out on the site, adequate separation and buffers may be provided to ensure the compatibility of the various uses proposed for the site.

4. *Whether and the extent to which the proposed amendment would adversely affect the environment, services, facilities, and transportation.*

City water and sewer are available to the larger site, of which this property is a portion. Sturgis Road is a principal arterial road providing adequate access to the larger site. The proposed amendment does not appear to have any significant adverse effect on the environment, services, facilities or transportation network.

5. *Whether and the extent to which the proposed amendment would result in a logical and orderly development pattern.*

The proposed amendment will allow public uses to provide a transition between existing mining and residential areas. The proposed amendment will allow outdoor educational facilities to be located adjacent to the existing public use at Wilderness Park, creating enhanced educational and recreational opportunities for the entire community.

6. *Whether and the extent to which the proposed amendment adversely affects any other part of the city, or creates any direct or indirect adverse effects.*

The Future Land Use Committee has not identified any significant adverse effects that the Comprehensive Plan Amendment will have on the surrounding area or on the City.

As of this writing, the required sign has been posted on the property but the receipts from the certified mailing have not been returned. Staff will notify the Planning Commission at the October 8, 2009 Planning Commission meeting if these requirements have not been met. Staff has received one inquiry regarding the proposed request at the time of this writing.

The Future Land Use Committee recommends approval of the request to amend the Comprehensive Plan by changing the land use designation from General Commercial to Public.
