No. 09SV021 - Variance to the Subdivision Regulations to waive the requirement to construct pavement, curb, gutter, sidewalk, water, sewer and street light conduit on the shared access easement as per Chapter 16.16 of the Rapid City Municipal Code

ITEM 24

Shared Access Easement: The applicant has submitted a proposed shared access easement 20 feet wide by 60 feet long along the south property line. The shared approach must not exceed 40 feet by 40 feet or construction plans must be submitted for review and approval showing the driveway constructed to City Street Design Standards with a minimum 20 foot wide paved surface, curb, gutter, sidewalk, street light conduit, water and sewer and located within a minimum 45 foot wide right-of-way or a Variance to the Subdivision Regulations must be obtained. By creating a 40 foot by 40 foot shared access easement, the applicant can eliminate the need for the Subdivision Variance for the driveway construction. As such, staff recommends that the Variance to the Subdivision Regulations be continued to allow the applicant to submit a revised plat document to reflect a 40 foot by 40 foot shared access easement.

Legal Notification Requirement: The receipts from the certified mailings have been returned.

Staff recommends that the Variance to the Subdivision Regulations be continued to the November 19, 2009 Planning Commission meeting to allow the applicant to submit a revised plat document.
