Subject: Sidewalk plan for Knutson Lane

Marsha-

GFP will commit to discussing the construction of sidewalk on Knutson Lane at the time construction is approved. As I stated on the phone, we have some hurdles to get past before we will be able to make this part of our project happen. However, should the project become a reality, we are committed to a sidewalk plan that makes sense for Knutson Lane, as it relates to sidewalk construction on Sturgis Road and our campus site.

Thank you very much for working with us to complete this valuable project for the city and GFP.

Best Regards

Scott Simpson

Subject: RE: SDGFP Outdoor Campus West - Read this one first please.

Thanks Dave.

Would SDGFP be willing to enter into an agreement with the City to build the sidewalk on Knutson Lane at the time it is re-constructed? That would likely be the best solution.

Also – just to make sure we are all on the same page... the question for SDDOT is whether or not they will allow the sidewalk to be built in the Sturgis Road right-of-way... the determination on whether it should be constructed at this time is really up to the City. Obviously, we want to coordinate our efforts with SDDOT. We too are anxious for a final response from SDDOT. Vicki needs to have her staff report completed by the end of the day.

Thanks all. m
