Ali,

The Well No. 13 Raw Water Meter Installation Project consists of constructing a meter pit and a gravel access driveway. The gravel driveway extends from the unimproved Dunsmore Road ROW to the well location. The City of Rapid City will be the owner of Lot H-2 as soon as the deed, which is in the hands of Buntrock, Graziano, Ward Development for their signature, is signed and filed. I will contact Kevin Buntrock and ask him to sign the 11-6-19 application.

Keith
