Randy Lyons
Landscape Designer
(605) 394-5225

Recommendation: Approval of the 11-16-19 Review Application relating to the Hangman's Hill Interpretive Signage.

Summary: This project is an Interpretive Sign Project, which is located at 940 Skyline Drive, known as Dinosaur Park. The scope of work is to construct a stone sign base that the interpretive sign panel will be embedded into. This will be similar in nature to other existing interpretive signs on site near the dinosaurs.

Project Description:

The main goal of this project is to erect a sign that tells the story about Hangman's Hill, which is located just north of the proposed location. The sign will be located in the Dinosaur Park Concession parking lot. Please refer to the attached site plan and details for further information regarding sign placement, sign base, and sign panel detail. We anticipate this project will be completed by May 14, 2010.
