Re: Catron Boulevard Reconstruction-Utility Relocation and Modification, Project
SSW09-1819, TSP#03090704

Dear Mr. Johnson:

Enclosed are 4 plan copies of the above referenced project for an 11-6-19 Review.

The purpose of this project is to install new gravity sewer main from the Catron Boulevard/Highway 16 intersection east to the Catron Boulevard/Wellington Drive intersection. This proposed sewer main will eliminate the need for the existing lift station at the northwest quadrant of the Catron Boulevard/Highway 16 intersection.

This project will also lower an existing 12" water main on the south side of Catron Boulevard east of the Highway 16 Intersection to accommodate the SDDOT project that will lower that section of roadway.

Sincerely,

TSP Inc.

Don Wrede, P.E.
