MEMORANDUM

TO: Rapid City Planning Commission

FROM: Jim Flaaen, Planner I

DATE: **November 4, 2010**

RE: File #10SC004-A Sidewalk Café Permit request by Dublin Square, Inc. for property legally described as Main Street right-of-way located adjacent to Lots 15 and 16, Block 83, Original Town of Rapid City, Section 1, T1N, R7E, BHM, Rapid City, Pennington County, South Dakota

(Updated October 25, 2010. All added and/or revised text is shown in bold print.) This item was continued to the November 4, 2010 Planning Commission meeting to allow the applicant to submit a revised site plan for the proposed sidewalk café. The applicant has indicated that he would be unable to submit the revised plan by the November 4, 2010 meeting and has requested that this item be continued to the November 18, 2010 Planning Commission meeting.

(Updated October 12, 2010. All added and/or revised text is shown in bold print.) This item was continued to the October 21, 2010 Planning Commission meeting to allow the applicant to submit a revised site plan for the proposed sidewalk café.

On July 21, 2008, the City Council approved Ordinance No. 5404 to create a Sidewalk Café Permit by amending Chapter 12.20.020(E) of the Rapid City Municipal Code. In particular, Ordinance No. 5404 states that sidewalk cafes are permitted only on sidewalks with a minimum width of 10 feet from the property line to the curb face. The location of the sidewalk café must be directly in front of the business operating the café, and may not extend beyond the side property lines. Sidewalk cafes must maintain a clear pedestrian path of at least 5 feet at all times. This pathway must be free of any obstructions such as trees, parking meters, and utility poles to allow pedestrian passage. Sidewalk cafes shall not interfere with any utilities or other facilities such as telephone poles, fire hydrants, fire protection appurtenances, parking meters, mailboxes, or signs

EQUAL OPPORTUNITY EMPLOYER

located in the public right-of-way. All applicable sight triangle requirements shall be met at all times by sidewalk cafes. No café elements may be located within 2 feet of the curb face.

The Sidewalk Café Permit Ordinance also sets forth design criteria regulating barricades, heaters, awnings, umbrellas, chairs, tables, landscaping, signage, lighting, music and other miscellaneous criteria to be utilized in the sidewalk cafe. In addition, the Sidewalk Café Permit Ordinance requires that every sidewalk café permit holder furnish a certificate of insurance providing commercial insurance coverage of at least \$2,000,000 for bodily injury, death, disability, and property damage liability. The City of Rapid City must be named as an additional insured on a primary, noncontributory basis for any liability arising directly or indirectly from the operation of a sidewalk café.

On June 15, 2009, the Planning Commission approved a Sidewalk Café Permit for the property to allow a sidewalk café in the Main Street Right-of-Way adjacent to Dublin Square Lounge on the legally described property. The previously approved sidewalk café consisted of seven tables and chairs to be located within a 7 foot wide by 50 foot 4 inch long area with a stanchion and chain barricade with one entrance point.

On August 30, 2010, the applicant submitted a Sidewalk Café Permit application to amend the previously approved sidewalk café. In particular, the proposed sidewalk café will consist of five tables with chairs to be located within a 7 foot wide by a 37 foot long area on the existing 14 foot 2 inch wide sidewalk. The proposed sidewalk café will include a barricade consisting of a black wrought iron fence replacing the stanchion and chain barrier. Staff review has noted that the submitted site plan is missing some required information including the locations of street signs, utility structures and monuments. The Sidewalk Café Permit Ordinance requires that a minimum 5 foot wide clear pedestrian path must be maintained at all times. The locations of street elements such as street sign, utility structures, monuments and the like must be identified to ensure that the required 5 foot clear pedestrian path is being provided and maintained. In addition, a staff inspection of the site on September 8, 2010 revealed that the width of the area of the sidewalk that the café is proposed to be located is only 14 feet 2 inches wide and not the 15 feet 8 inches as identified on the site plan. As such, prior to Planning Commission approval, a revised site plan identifying the location of street signs, utility structures, monuments and the required 2 foot wide barrier to the curb face must be submitted for review and approval.

The applicant has submitted a detail of the proposed barricade to be placed around the sidewalk café. The proposed barricade will consist of a 4 foot high black wrought iron fence. In addition, the applicant has submitted a sample of the mounting bracket and bolt to be used to secure the fence to the sidewalk demonstrating that it is readily removable. Prior to anchoring the fence to the sidewalk, a Permit to Work in the Right-of-Way must be obtained from the Public Works Department. The applicant is the responsible for keeping the sidewalk abutting the property free of snow and ice in compliance with Section 12.20.070 of the Rapid City Municipal Code. The railing anchored to the sidewalk may make snow removal more difficult on this portion of the sidewalk. As such, staff recommends that the applicant continually provide snow and ice removal maintenance in compliance with Section 12.20.070.

The Sidewalk Café Permit Ordinance requires that every sidewalk café permit holder furnish a certificate of insurance providing commercial insurance coverage of at least \$2,000,000 for bodily injury, death, disability, and property damage liability. The City of Rapid City must be named as an additional insured on a primary, noncontributory basis for any liability arising directly or indirectly from the operation of a sidewalk café. As of this writing, the applicant has not submitted the necessary insurance coverage for the proposed sidewalk café. As such, prior to approval by the Planning Commission, the applicant must submit a certificate of insurance providing commercial insurance coverage of at least \$2,000,000 for bodily injury, death, disability, and property damage liability for review and approval by the City Attorney's Office. (Updated

September 27, 2010.) The applicant has submitted the required certificate of insurance for the proposed sidewalk café. The City Attorney's Office and Risk Manager have indicated that the certificate meets all City requirements.

As previously stated, a complete site plan with all street elements has not been provided. As such, staff is unable to determine if the applicant's Sidewalk Café Permit request meets all of the design criteria and requirements of Chapter 12.20.020(E). As such, prior to Planning Commission approval, a revised site plan identifying the location of street signs, utility structures, monuments and the required 2 foot wide barrier to the curb face must be submitted for review and approval. **(Updated October 25, 2010.) As of this writing, a revised site plan has not been submitted.** (Updated October 12, 2010.) As of this writing, a revised site plan has not been submitted. (Updated September 30, 2010.) As of this writing, a revised site plan has not been submitted. The applicant should be aware that approval of the Sidewalk Café Permit is specific to the location and design submitted as a part of this application. The Sidewalk Café Permit must be operated in compliance with the approved site plan and cannot be transferred to any other location.

RECOMMENDATION: Staff recommends that the Sidewalk Café request be continued to the November 18, 2010 Planning Commission meeting at the applicant's request.
