

02-11-11

To who it may concern:

I Mickey Snark am very disappointed that the Council would even consider a variance of such nature. This are low density and to think of if going to a medium Density is not an option, to waive the requirement to increase the existing pavement width from 24 to 27 feet is wrong. You need to make it legal widths. What you are trying to do is put a mobile home court, is and that a fact. Why I say this you put these homes in like Sardines it looks like a mobile home court. The properties will lose value, those are only four. Let's not ~~say~~.

So with this being said I can not and will not submit to letting the council give permission to do this. My answer is no to this variances.
