To who it may concern:

I Mickey Swook am very disappointed that the Council would even consider a variance of such nature. This area Low density and to think of it going to a medium Density is not a option, to waive the requirement to increase the existing pavement width from 24 to 27 feet is wrong. You need to make it legal width.

What you are trying to do is put a mobile home court in and that a fact. Why I say this you put these homes in lake Squires it looks like a mobile home court. The properties will lose value, those are only Four Lets not say.

So with this being said I can not and will not submit to letting the council give permission to do this. My answer is no to this Variance.
