

ORRIS ENTERPRISES, INC.

ERICH D. ORRIS

22 April 2011

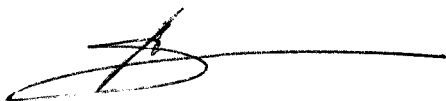

Esteemed members of the Rapid City Growth Management Department as well as those of the Planning Commission:

This is to be considered a letter of intent in regards to the expansion of an existing Sidewalk Café Permit, located at 518/520 7th Street. Orris Enterprises, Inc., hereafter "The Company" requests of the City of Rapid City, hereafter "The City" permission to expand its current sidewalk café an additional 21 feet to cover the frontage of leasehold that was secured in June of 2010. This is for the explicit purpose of allowing more efficient service to patrons as well as increasing the total number of patrons served at this facility. The Company will continue to operate under the same intent and purpose of its Conditional Use Permit for Alcoholic Beverage Facilities, primarily serving to patrons from no earlier than 10am to no later than midnight. However The Company continues to reserve its right to do business during any and all legal hours as per South Dakota and The City's laws and codes on an as need basis primarily for the purpose of special events and holidays.

Physical makeup of the patio, chairs, umbrellas, stanchions, trash receptacles, and any and all other items used or needed for these purposes will be of high-quality construction and will abide by all of The City's codified laws in regards to height, type, and quality. This expanded section will facilitate the ability to seat an additional 16 patrons on the sidewalk café, and will not impede any transition of pedestrians insofar as the requirements of The City's codified law and/or existing directives. Stanchions will be retractable-type ribbon posts similar to what is seen in high-end hotels and airports, and similar to what is currently in use at the 520 location.

Thank you for your timely consideration and your attention to this matter.

Sincerely,

Erich D. Orris
CEO
