

Hello, I am Shane Liebzig, I own SL Bids LLC and the Watertown street property. I bought the property in the early 2000's. I remodeled and fixed the old girl up. In 2005 I requested to pave the front of the shop and new curb cuts. At the time Jim Shaw was mayor and we agreed if I paid to pave it, I could continue to use it for parking as it had been for over 30 years. I have included the permits from them dates. I am requesting now a exception to back into right of way.

This has been going on for over 40 years now, but I guess I need to make official.

Watertown Street is not a very busy street to back into. This come up because of a planned development so I could have a dog training center rent one of my units. I have provided Engineer drawings, copy of permits, aerial drawings & Pictures.
Thanks for help
