RE: Final Planned Development Overlay Procedure

We would like to construct a day-care facility on said legal description. We feel that this would be an excellent use for the property. The operator would be Honey Lake Enrichment Center which has operated a successful business for years in the Rapid City area. This new building would serve as the new day care facility combining the current facilities. Our building will be ADA and fully sprinkled.

Sincerely,

Jake Boerger

- Materials for fence-chain link at least 42" high
- Signs will meet city codes. There will also be a sign placed on the Transformer sign.

To whom it may concern:

This email includes a Business itinerary for Honey Lake enrichment. We are a state of the art daycare and preschool enrichment center. We plan to serve 35-60 children on a daily basis. On site we do serve breakfast and lunch from our kitchen. Our hours are 6 am to 6 pm Monday through Friday. Our center is a daycare, preschool, and after school program that includes art, music, and science. We will employ 10-15 employees. Our site serves the community by securing an environment of care, safety, creativity, and education.

Thank you  
Shannah Grenz-Williams
