Dear Council Members;

Regarding the annexation of our property, we are already part of the Rapid City Community, and don't have a problem with being annexed into the city. However we object to any forth coming assessments for the continuation of Parkview Dr. We already have utilities, and clear our own road in front of our property when the snow has may it impassable. This annexation does not make payments of almost a \$1,000 a month, for ten years, for a road any more affordable or less objectional.

Thank you.

Sincerely,

Harmon (Tony) Talley
