PLAT #00PL122 - Layout Plat

ITEM 4

GENERAL INFORMATION:

| | |
|--------------------|---|
| PETITIONER | Paul Hunt |
| REQUEST | PLAT #00PL122 - Layout Plat |
| LEGAL DESCRIPTION | SW1/4 of the NW1/4 and the NW1/4 of the SW1/4 of Section 13, T1N, R8E, BHM, Pennington County, South Dakota |
| PARCEL ACREAGE | Approximately 40 Acres |
| LOCATION | Approximately 1/2 mile north of the intersection of S.D. Highway 44 and Anderson Road on the east side of Anderson Road |
| EXISTING ZONING | General Agricultural Zoning District (County) |
| SURROUNDING ZONING | |
| North: | General Agricultural Zoning District (County) |
| South: | General Agricultural Zoning District (County) |
| East: | General Agricultural Zoning District (County) |
| West: | Low Density Residential (County) |
| PUBLIC UTILITIES | Proposed to be extended |
| REPORT BY | Blaise Emerson |

RECOMMENDATION: **Staff recommends that the Layout Plat be continued to the May 24, 2001 Planning Commission meeting.**

GENERAL COMMENTS: **This item was continued at the February 22, 2001 Planning Commission meeting to allow the applicant to address the water and sewer issues. This Staff report has been revised as of March 27, 2001. All revisions are shown in bold.**

The applicant is proposing to develop a 106 lot subdivision on a 40 acre parcel located on Anderson Road approximately one half mile north of SD Highway 44. The applicant has proposed to form a water and sewer district and connect to City water and sewer facilities located along SD Highway 44. Public water and sewer are needed to facilitate the proposed density of the development. The applicant has proposed to extend the water and sewer north along Anderson Road.

PLAT #00PL122 - Layout Plat

ITEM 4

The Planning Commission continued this item at the January 4, 2001 meeting to allow the applicant to discuss the possibility of connecting to City water and sanitary sewer services. The applicant's engineer met with the Public Works Committee regarding this issue. The Public Works Committee recommended that the Mayor appoint a committee of City Staff, City Council and Planning Commission members, to establish guidelines and policies relative to the provision of water and sewer to areas outside the City Limits. The Committee met on February 26, 2001 and March 14 to discuss draft policy regarding this issue. The Committee is waiting for a final decision on how the proposed expansion of the Rapid City Water Reclamation Facility will be funded. That decision has been continued to allow a committee of City Council members to review the issues and bring back a recommendation in thirty days. Until the funding for the Rapid City Water Reclamation Facility is decided so that the plant upgrades and expansion can proceed. Without the plant upgrades and expansion, it is unlikely that sewer service will be provided to area outside the City Limits. Staff is recommending that the Layout Plat be continued.

STAFF REVIEW: Staff has reviewed the Layout Plat and has noted the following comments:

Staff has other concerns with the proposed street network. The applicant does not propose a street connection to the property to the north. A north-south street connection through the property is critical. This would provide a local street network that would parallel Anderson Road that has been identified on the Major Street Plan as a minor arterial.

The Engineering Staff has also stated concerns with how the drainage and utilities will be handled for this project. They have requested that preliminary drainage and utility master planning be completed for this project. The master plan needs address how these facilities would impact the surrounding properties. In particular if City services are provided to the subject property, it may be appropriate to extend these services to the neighboring properties to insure that when the neighboring properties are developed they can connect to these facilities. Also, Staff is concerned that the downstream storm water impacts created by the proposed development be adequately addressed. Of particular concern are the impacts on the Murphy Ditch which is located south of the property.
