

## Memorandum

To: Dan Bjerke, Public Works Director  
From: Lon Van Deusen, Parks Division Manager  
Date: December 21, 2000  
Re: Quote Tabulation for breaker attachment (Cemetery backhoe)

### Bierschbach Equipment

November 11, 2000

Breaker and hydraulic mounting kit.....\$ 12,045.00

December 15, 2000

Quick coupler attachment.....\$ 1,555.00

Total.....\$ 13,600.00

### Jenner Equipment

November 6, 2000

Breaker and Hydraulic mounting kit.....\$ 12,900.00

December 15, 2000

Quick coupler attachment.....\$ 828.00

Total.....\$ 13,728.00

Original quotes for the breaker attachment were received early in November. After some discussion with Cemetery supervisor Tom Vallette concerning specifications on weight and size appropriateness for our equipment and operation, Tom went back to the vendors and inquired about any additional attachment hardware that might make switching back and forth from bucket to breaker an easier operation. Both vendors offered additional information concerning the availability of a Quick coupler attachment and subsequently provided an additional quote on this installation. Equipment will be ordered from Bierschbach Equipment with delivery to take place in a week to ten days. Installation should take approximately two days and will be coordinated with Cemetery operations schedule.
