Subject: RE: 5th/St Cloud

7 reported accidents from 2000 - 2003
2 reported accidents in 2000
0 reported accidents in 2001
2 reported accidents in 2002
3 reported accidents in 2003

6 of the 7 accidents from 2000 - 2003 were as a result of a car WB on St. Cloud and turning SB onto 5th
5 of these accidents the car turning off St Cloud was struck by a NB car on 5th Street
1 accident resulted when an EB car on St Cloud was struck by a NB car on 5th Street
1 accident resulted when both cars were on St Cloud and proceeding in opposite directions

YTD for 2004 shows two reportable accidents at the intersection

We will pull the record for the last two or three years. And, we will try to sort out what kind of accidents we might be having there. This will take a few days. We'll try to get it before Monday night. CT

Chief, what has the accident rate been at 5th and St Cloud. I received a call from LaVina VanLeuven who saw an accident a few weeks ago at this intersection because someone got impatient trying to turn south from St Cloud....She said she'd been asking the city for years to do something about it and she thinks it's getting worse.
