**RE: Project # SSW05-1469, (P 0044(52)50 E. Highway 44 Grading) Utilities Reconstruction
from Longview Road to Airport Road approach, CIP Project # 50479**

This is a Request for Council to Authorize Selection of Professional Consultant Services for the E. Hwy 44 Utility Reconstruction Project in conjunction with the SDDOT grading project.

It is necessary for the City of Rapid City to adjust portions of the existing E. Hwy 44 sanitary sewer trunk outfall line and existing water main (between Longview Road and Airport Road) in conjunction with the reconstruction of four miles of State Hwy 44 to a 5-lane facility (due to increases in traffic volumes). The City utility work will include construction of water main lowerings, installation of roadway crossing sleeves, and modifications of the sanitary sewer main manholes, where necessary.

The project currently has a total budget of \$ 70,000, including design and construction with easements or right-of-way acquisition additional, if found to be necessary. Funding for the project is from the 833 Sewer Enterprise Fund and the 933 Water Enterprise Fund.
