 Re: Utility 4x4 purchase

We are budgeted for purchase of a small utility 4x4 for the plant. :
 The intent of the machine is for carrying tools and parts around the plant, to reduce using pickups for in plant use.
 I have received comparable quotes from 4 Seasons Sports Center, and Black Hills powersports. (See attached.)

The Polaris Ranger is quoted at \$9,223.00 and includes a steel hard top.
 The Yamaha Rhino is quoted at 8, 838.00 and doesn't include a top.
 An aluminum billet hard top can be purchased for the Rhino bringing the price to \$9,038.00 however,
 The Ranger has 1000lb cargo capacity verses 400lbs for the Rhino.
 The Ranger has 1500lb towing capacity verses 1212 lbs for the Rhino.
 The Ranger also has seating capacity for 3 verses 2 for the Rhino.

The cost is below \$15,000.00 therefore doesn't require formal bids.
 I view the Ranger as being a more durable / capable machine, and therefore I would recommend spending the extra \$185.00, and accepting the quote from Four Seasons.

The Ranger is available for pickup at Four Seasons, and will require issue of a check at the time of receipt of the vehicle. Also attached is a purchase order and invoice for the above referenced machine.

Sincerely

Dave Van Cleave
 Superintendent
