Re: Railroad Lease No. 1572

Dear Ms. Dailey:

In a continuing effort to improve and control storm water runoff within the City Limits of the City of Rapid City, the Public Works Department has budgeted to complete our project, "Knollwood Drainage Elements 2 and 20," in 2006 and 2007.

To that end, the City of Rapid City requests to purchase the above referenced lease lands from the State of South Dakota. City ownership of this land will allow us to proceed with the final designs to route this storm water through the subject lands.

Please advise as to the procedure, documents and other steps the City of Rapid City needs to take.

Sincerely,

Dirk Jablonski, PE
Public Works Director

Cc: Mayor Jim Shaw
Jason Green, City Attorney
