MEMORANDUM

TO: Public Works Committee

- CC: Honorable Mayor Shaw Rod Johnson, Project Manager Brian Maliske, Civic Center General Manager
- FROM: Dirk Jablonski, Public Works Director
- DATE: June 21, 2007
- RE: Change Order #1 Rushmore Plaza Civic Center Multipurpose Addition

Change Order #1 for the Rushmore Plaza Civic Center Multipurpose Addition Project is presented to the Public Works Committee for your consideration and action. This change is for the modification to the super trusses.

In the time period between the original bid, which was rejected by Council, and the rebid, the consultant redesigned the trusses to provide for bolted joints in place of the original design which called for welded joints. This was done to lower costs because it was noted that the welded joints cost was exorbitantly high. The consultant states that, in the time between the original bid and the re-bid, the trusses were re-designed but there was insufficient time to provide a complete quality review. It was intended that this review would proceed, as is normally done, well into construction. An error was discovered and the correction made to the design. This change order addresses that revision.

The following information is offered for Council's consideration.

| Estimated savings of truss re-design: | \$1 | ,000,000 |
|---------------------------------------|-----|----------|
| Change Order: | \$ | 260,000 |
| Net re-design savings: | \$ | 740,000 |
| Project Contingency | \$ | 364,000 |

It should be noted that had the omission been identified prior to the rebid, the bid price would have been reflected the additional cost.

The consultant will be available at the meeting to discuss the change order.
