Public Works Committee/Common Council

RE: Request Authorization to Seek Proposals for Engineering Services for  
Highway 16 Fire Station Detention Cell Project DR03-1268 CIP #50440

Staff proposes to construct a detention pond on Lot 2 of Owen Hibbard Subdivision. The detention pond is needed to detain increased runoff resulting from development of the City's property along Promise Road, including Fire Station No. 6.

Staff proposes to hire a Consultant Engineer to be responsible for designing the projects, bidding the projects, and providing construction observation, administration and project closeout.

The projects are funded from the Drainage Fund. The projects' budget is \$150,000, which includes design and construction costs.

Staff proposes to bid the project in 2008 with construction to be completed in 2009.

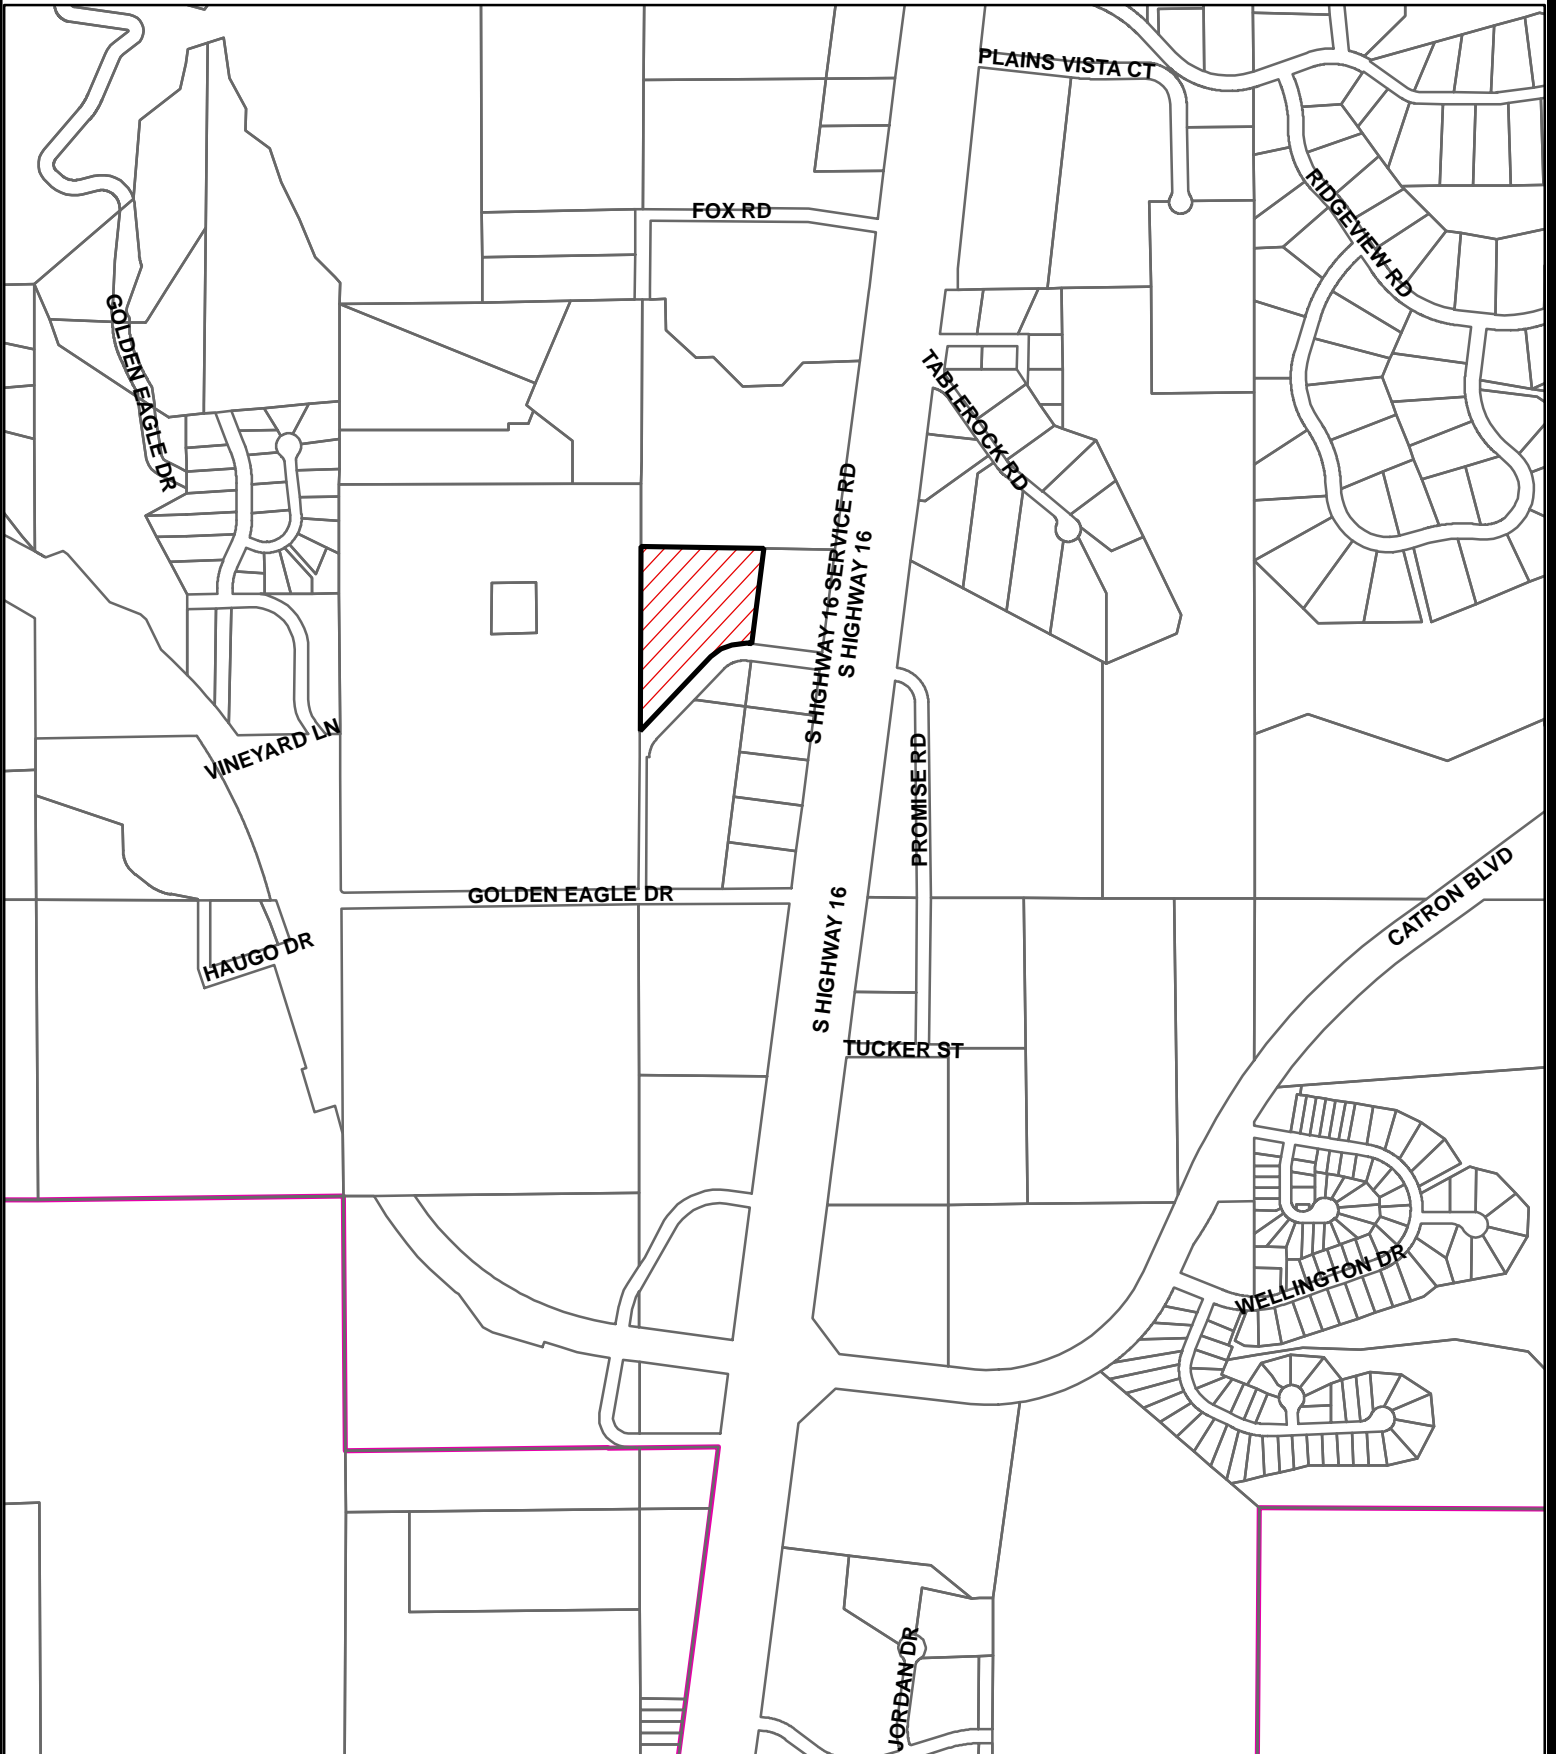

Keith Johnson  
Project Administrator

Cc: Robert Ellis, Public Works Director
