South: Low Density Residential District
East: Low Density Residential District
West: Low Density Residential District

PUBLIC UTILITIES City water and sewer

DATE OF APPLICATION 11/19/2008

REVIEWED BY Jared Ball / Karley Halsted

RECOMMENDATION:

Staff recommends that the Vacation of a portion of a Utility and Minor Drainage Easement be denied without prejudice.

<u>GENERAL COMMENTS</u>: The property is located at 1712 Mesa Drive. The property is currently zoned Low Density Residential District. The adjacent properties to the north, south, east, and west are also zoned Low Density Residential District. The applicant is proposing to vacate a 28 foot section of an 8 foot wide Utility and Minor Drainage Easement on the north lot line of the property. The applicant has indicated that the vacation of easement is needed for a proposed expansion of the residence that is currently located on the property.

On November 18, 2008 the Zoning Board of Adjustments considered a variance request to reduce the side yard set back for the proposed expansion from the required eight feet to one

foot. The variance request was continued to allow the applicant to make this application for the vacation of the Utility and Minor Drainage Easement.

<u>STAFF REVIEW</u>: Staff has reviewed the Vacation of Utility and Minor Drainage Easement and noted the following considerations:

<u>Drainage</u>: On December 14, 2008 the applicant submitted an aerial photograph of the property showing the contour lines and a letter from a Registered Professional Engineer stating that the proposed addition will not adversely affect the local drainage characteristics. However the applicant has not provided drainage calculations for the site. Staff has concerns that the proposed addition will cause an increase in runoff onto the adjacent property to the north. Staff comments indicate that a drainage easement is needed on the adjacent property to the north to ensure that drainage flows will not adversely affect the adjacent property to the north. In addition, the applicant could construct a smaller addition and reduce the size of the vacation of a portion of a Utility and Minor Drainage Easement that is needed. As such, staff recommends that the Vacation of a portion of a Utility and Minor Drainage Easement be denied without prejudice.

<u>Side Yard setback</u>: The applicant has indicated that the Vacation of a portion of a Utility and Minor Drainage Easement is needed for a proposed addition to the residence that is located on the property. Staff noted that the proposed addition does not meet the required eight foot side yard set back in the Low Density Residential District.

Staff has concerns that the proposed addition may cause runoff from the east to be discharged onto the adjacent property to the north. As such, staff recommends that the Vacation of a portion of a Utility and Minor Drainage Easement be denied without prejudice.

<u>Utility Company Approval:</u> The vacation of a utility easement requires review by all affected utility companies. All of the affected utility companies have responded to the request. Qwest submitted a letter indicating that they did not object to the request to vacate a portion of the Utility and Minor Drainage Easement as long as a one foot easement is retained and that a four inch conduit is provided by the property owner along the north side of the foundation wall adjacent to the proposed addition. It should be noted that a one foot easement will not be sufficient to allow maintenance of the utilities.

Staff recommends that the Vacation of a portion of a Utility and Minor Drainage Easement be denied without prejudice.
