Subject: Against Changes to Shooting Star

To whom it may concern:

Unfortunately I have a previous engagement that will preclude me from attending the planning meeting on Nov 27th at 12:30.

As residents of 5508 Sunburst Dr, in the Wildwood subdivision, my family and I purchased here because of the natural, quiet and low traffic environment. We oppose the measure from letter dated Nov 2 but not received until weeks later, requesting a name change for Poppy trail to Shooting Star Trail.

We want the road to remain named as is. Further we are strongly opposed to any remote interest in Shooting Star Trail becoming a connector street with Red Rocks subdivision. The case for this was tried and decided against in federal district and state supreme court.
