RE: Canyon Lake Little League Majors Field Fence Relocation

Dear Legal and Finance Committee:

FMG on the behalf of Canyon Lake Little League request the signature of the City of Rapid City Major on the proposed City of Rapid City Development Application. Canyon Lake Little League proposes to relocate the Majors Field outfield fence and player dugouts after the current little league baseball season ends. The proposed work will require a minimal amendment to their conditional use permit.

Work proposed includes relocating the drainage channel located south of the field, south about 20 feet to allow for the room needed to relocate the fence. Dugouts will also be moved down the right and left field lines to allow for a greater viewing area behind home plate and left and right base lines, and fences will be adjusted accordingly.

Canyon Lake has obtained necessary wetlands permit for the relocation of the channel, and a floodplain development permit has been applied for, it is our understanding this permit has been approved by the Engineering Division and has been given to the Building Permit Office for processing.

Enclosed herewith are one-half size plan drawings illustrating the proposed work by the Canyon Lake Little League and the development application. The development application must be signed by the owner, which in this case is the City of Rapid City. It is our understanding this committee must first give their approval before the development application can be signed by a representative from the City.

Canyon Lake Little League has a pending agreement with the South Dakota National Guard to construct the proposed work.

If you have any questions please do not hesitate to contact us.

Sincerely Yours,

Richard Sudmeier, PE
