Public Works Committee/Common Council

RE: Request Authorization to Seek Proposals for Engineering Services for
Utility Maintenance Facility Project # 13-2120 CIP # 50870

The Rapid City Public Works Department Utility Maintenance Division is preparing to build a new maintenance facility on property recently acquired and adjacent to the current Street Maintenance and Utility Maintenance Facilities at Steele Avenue and East Main Street North.

The new facility will allow Utility Maintenance to accommodate their current operation and provide for future growth. It will also allow Street Maintenance to expand into facilities vacated by Utility Maintenance, meeting their current and future operation needs.

Staff proposes to hire a Consultant to provide professional services for the design and construction administration of these facilities.

The project is funded from the Water and Wastewater Enterprise Funds.

Dale Tech, PE
City Engineer

Cc: Terry Wolterstorff, Public Works Director
