Subject: Calle Baja Utilities - cancel request

Nicole,

The project may be taking a different direction, and there will be a different engineering firm handling the design work in whatever form it takes. This is a request to remove the Public Force Main request from the agenda until such time that a new plan is formulated by others. Thank you all for your time and effort thus far, and hopefully a plan can be formulated that is agreeable by all in the near future.

Thanks,

Mitch
