Public Works Committee/Common Council

RE: Request Authorization to Seek Proposals for Engineering Services for
9th Street Reconstruction Project – Fulton St to Columbus St, 14-2208 and CIP
#50435

Staff proposes to reconstruct the street, water main, sewer main, and storm sewer in 9th Street from Fulton Street to Columbus Street. Most of the sanitary sewer is clay pipe, the water is ductile iron pipe and the street is in poor condition. Drainage improvements will be required in 9th Street per the Downtown Drainage Basin Plan.

Staff proposes to hire a Consultant to be responsible for designing, bidding, and providing construction observation for the Project.

The project is funded from the Streets, Water, Sewer and Drainage funds. The project budget is \$700,000.

Staff proposes to bid and construct the project in 2015.

Dale Tech, PE
City Engineer
