**Subject:** Wal-Mart

I am writing in regards to the proposed second super Wal-Mart center in Rapid City.

I very much hope that the recent approval in the change in zoning will be appealed.

When Wal-Mart opened it's first Super Center in Rapid City, I, like many others was excited. I went to Wal-Mart quite often to take advantage of the low prices there.

As time went on, I learned more about Wal-Mart and it's practices and grew more discontented. I no longer shop there because I do not like the advantages Wal-Mart gets to the detriment of it's employees and to the economic health of the community. I have yet to learn of Wal-Mart actually improving the community in which there is a store.

I have found I can easily live without going to the existing Wal-Mart and can easily live without a second Wal-Mart. Instead of focusing my shopping at Wal-Mart, I now support several other local businesses.

We must live with the Wal-Mart we have now and I see zero advantages to the people and community with a second Wal-Mart.

Thank You

Patti Martinson

To Whom It May Concern:

This is a formal appeal to the action taken by the Rapid City Planning Commission on January 5, 2006 regarding agenda items number 39, 40, 41, and 42. Respectively these items were numbered No. 05PL129, No. 05SV078, 05RZ047, 05PD077. I respectfully submit my request for appeal to the Rapid City Council regarding the approval of these four agenda items by the Planning Commission.

Planting a large retail operation in this location is wrong for many reasons. Please accept this formal appeal to be forwarded to the Rapid City Council.

Sincerely,

Mike Mueller  
Rapid City, SD

Doug Andrews, Chair  
Rapid City Planning Commission  
Marcia Elkins, Director, Growth Management  
300 6<sup>th</sup> Street  
Rapid City, So. Dak. 57701

Dear Mr. Andrews,

I am writing this letter asking that you will repeal the decision that you made last Thursday morning allowing the Wal Mart Proposal to be advanced to the city council. I am strongly opposed to putting a huge big box out in the corridor to our beautiful Black Hills.

We were allowed to see some power point pictures last Thursday morning. The pictures that were shown only enhanced my sense of outrage that the surrounding homes, ranches and grasslands would overlook a huge building and a lot of concrete. Surely these families that bought these many acres never imagined that their beautiful land would some day be over-shaddowed by thousands of people, cars and pollution of all types. There is nothing beautiful about a box or concrete.

I am suggesting that you deny the land purchase to Wal Mart and instead urge the city council to develop a smart growth plan. Cities around the United States, not wanting huge businesses and corporations to surround their cities are developing plans such as these. In so doing, they retain the power to plan the city from the inside out rather than from the outside in. It also allows time for more input from local individuals and businesses concerning the types of building that will occupy our corridor to the scenic Black Hills.

All over America, small shops and businesses have been forced to close due to the huge Wal Mart Corporation. I believe it is essential to keep Rapid City as a city with more small specialty shops and fewer cut-rate mega businesses. Tourists rarely choose the Black Hills as their destination because there are two super Wal-Marts and one Super Sam's Club. They choose our area because of the beauty of the hills, the wide variety of small towns, smart tourist attractions, lakes, monuments and camping and hiking opportunities. A Super Wal-Mart does not fit this description.

Please reconsider your decision and instead urge the city to develop a smart growth plan. This will allow thousands of us to continue to live the life we love in our precious and beautiful foothills of the Black Hills.

Thank you for your consideration.

Sincerely,

Rev. Lin Jennewein

Marcia Elkins, Director  
Growth Management  
300 Sixth Street  
Rapid City, SD 57701

Dear Director Elkins:

I am submitting my **appeal** of the decision of the City Planning Commission on January 5<sup>th</sup> of item #42 and regarding development along hwy 16 and the Wal-Mart Super Center.

I attended the meeting on January 5<sup>th</sup> and I am concerned that the planning commission went forth with this decision in the face of so many concerns voiced by citizens and residents. All of the concerns voiced were valid and causes me to wonder if each member of the commission did in-depth research regarding the values and the impact of Wal-Mart company in countless cities across the nation. My particular interest, as a Lakota person, is that the Black Hills are sacred to over 62 tribes and that commercialization is encroaching further and further into the heart of the hills. Most of the small businesses are at least somewhat tasteful to view, but a monstrosity like Wal-Mart will be outrageous!

I urge the commission to consider a "smart growth plan" and I urge you also to give thoughtful consideration to the concerns of the people.....before any further action toward commercial development on hwy 16.

Thank you for your consideration ~

January 9, 2006

Doug Andrews, Chair  
Rapid City Planning Commission  
Marcia Elkins, Director  
Growth Management  
300 Sixth St.  
Rapid City, SD 57701

Dear Chairman Andrews and Director Elkins:

I attended the Planning Commission meeting last Thursday, January 5<sup>th</sup>. I am very concerned about the Commission's action to recommend to the City Council the approval for big box development on the Highway 16 corridor in the pristine Black Hills.

I was born and raised in western South Dakota and have been a resident of Rapid City since attending SDSM&T more than 40 years ago. I have owned homes in Rapid City since 1977 and have continuously resided here for the past 17 years.

I was fortunate to be selected as South Dakota's first Peace Corps Volunteer and served in Tanganyika. My major assignment there and my first analytical study ever published was the *Long Range Transportation Planning for Eastern Region*. This area is about the same size as the Black Hills. More than 30 years ago while a senior officer at the Phelps Stokes Fund, I assisted Dr. Satish Parek in developing and publishing his *Long Range Planning Model*. The Phelps Stokes Fund subsequently used this publication to assist more than 50 colleges and universities in strategic planning. I have directly assisted a number of these colleges, especially the tribal colleges, in writing their long range plans. Thus, I believe I have some expertise in strategic planning.

I am very concerned that the proposed big box development well south of town is "hopscotch" development that has contributed to urban sprawl throughout the United States in the past 30 years. One would think that we would begin to learn from our mistakes. What Rapid City needs is a "smart growth plan." Such a plan grows the city from the inside out in a gradual, rational pattern. The urban sprawl development proposed by the big box is likely to contribute to the closing of many of our small retail stores, especially those in the downtown area.

Phone & Fax (605) 718-0545  
Cellular (605) 391-7588  
E-mail: tkatus@rushmore.com

Therefore, under the appeal regulations of the Commission, I am appealing this decision in hopes that the Commission and Growth Management department will adopt a smart growth plan for the benefit of all our citizens, our small businesses and our collective quality of life, which so many of us cherish. By accepting this appeal and revisiting the plan, you will truly be representing the majority of the people, not just greedy outside big box operators.

Thank you for your consideration. I look forward to your acceptance of this appeal and beginning of a dialogue on smart growth planning.

Subject: ATTENTION MARSHA-VICKI

Dear Marsha:

Attached is a petition from the Moon Meadows Road area residents. I have been asked to forward this to you as the interested parties cannot be at the meeting tonight. There is some confusion on the fact that there is a City Council meeting on Martin Luther King Holiday. Some parties have taken long weekend vacations or are out of town as they were assuming the City of Rapid City would observe this holiday.

Thank you.

Casey Peterson

We, the undersigned residents of the Moon Meadows Road area, ask the City of Rapid City to delay the Hwy 16 Wal-Mart application until the HDR Traffic Study includes the impact on the safety of Moon Meadows residents; and include as an application condition that Wal-Mart pay the costs for bringing the entire Moon Meadows Road to a safer level of service. We do not want to be obligated to pay the costs of upgrading a curvy, narrow road to accommodate the traffic coming to Wal-Mart from the West.

Subject: Sustained growth is good for Rapid City

Good afternoon:

Thank you in advance for a moment of your valuable time. I am writing to support continued reasonable and sustained growth in our community.

Specifically, as a resident and proponent of southwest Rapid City, I again urge your support of the Walmart/Highway 16 proposal and thank you for your considerable efforts thus far. We need such retail and service-oriented business in our part of town.

I do, however, remain concerned about the "anti-growth" contingent in our community and their desire to deny lawful and needed progress. While, of course, everyone is entitled to their own opinions, obstruction of economic growth is both counterproductive and self-defeating.

I sincerely hope you will continue to say "yes" to new ideas, new jobs and especially, new retail businesses for Rapid City. Thanks again for all you do.

Regards,

Scott Zieske, CMSR  
Director-Physician Recruitment and Governmental Affairs Regional Health

Subject: tonight's agenda and WalMart

Dear Ladies and Gentlemen of the Council,

Most of you know how I feel regarding the development on Highway 16. I do feel it is going to develop into commercial development and I'm hoping you will only allow the type of commercial development that the topography of this area will allow. The area would support office commercial and general commercial with size restrictions to the buildings. This type of development would also be safe for the area for a number of reasons.

1) There will be a large residential development along Sammis Trail whose traffic will need to feed onto Highway 16. The Moon Meadows/ Countryside/Red Rocks areas also need to be considered when planning for traffic. Stores such as WalMart generate unusually high traffic congestion. Who is going to pay for the roads to handle this volume of traffic? Councilman Kroeger said that he feels "it will be just like another LaCrosse Street". Where will the money come from to make his dream come true??

2) Sewage.....it should always run downhill. Why are they going to try to get it to go uphill?? Who will pay for this now? Because I can only guess who will pay for this later!!

3) Why can't you require Walmart to build in an area that can currently support its infrastructure needs? Catron and 5th Street has the sewage available, the traffic issues would be solved, the esthetic problems would be solved, it would be convenient for the southwest resident consumers and it would be positioned on an award winning highway on the way to Mount Rushmore.....I thought this is what Walmart wanted!!!???

Tonight, please delay the agenda items that relate to Walmart. Keep all the items together so all aspects of the issue can be considered together.

Sincerely,  
Kerry Papendick, 8581 Dreamscape Road

**Subject:** Wal-Mart

Dear Mayor Shaw and Rapid City Council Members,

It's time to stop the propaganda and mob mentality against Wal-Mart, settle down and be sensible. Let's look at the so-called arguments against Wal-Mart:

Wal-Mart buys their merchandise from China. I looked at the labels on my clothing this morning while I was getting dressed. My underwear that I bought at Penneys came from Honduras and Costa Rica, my jeans that I bought at Shopko came from Mexico, my pullover top from Herbergers is from Taiwan, my tennis shoes from Sears are from China. I drive a car assembled in America, but made with parts from Japan. I bought ground beef from the supermarket that probably came from Argentina or Australia. I wash clothes in a washer made in Mexico. Which store doesn't buy merchandise from other countries? Did you see the news article about China making cars that cost less than \$10,000 to buy? If a car dealer wanted to locate in Rapid City and sell cars from China, would you stop his business too?

The issue of urban sprawl and building infrastructure from the city outward. We already have urban sprawl in all directions from Rapid City, including Highway 16, where there is a modular home development located next to Rushmore Shadows campground. Why is Highway 16 being singled out as the place where urban sprawl is not acceptable? No one made an issue of other housing developments to the west, east and north of Rapid City. The answer is obvious-it is because of the "elite" people who have "influence". They want their own quiet little corner of the Black Hills with their big houses on 5 to 10 acres and no other developments or traffic. As to the idea that infrastructure must be built from the city outward, why wasn't that idea followed before the Orthopedic Center was built? Also, a fire station, a coffee shop and a federal forest service building have been built on Highway 16. How can you say that all those places can build, but not Wal-Mart?

Wal-Mart will hurt the downtown area merchants. Yes, they might hurt a few downtown stores, but most of the downtown stores are specialized and would not be affected. A new Wal-Mart might actually attract more people from western South Dakota to shop in Rapid City-thereby bringing more shoppers to the whole town. The downtown area was grievously hurt when the mall was built much more than Wal-Mart will hurt it now. Can you imagine shopping in Rapid City without the mall area? What if a previous council had turned down the mall building permit because it would hurt the downtown area? How many area shoppers would we attract? How much sales tax would our city collect if the mall was not here?

Since we bought our campground twelve years ago, the number of campgrounds in the Black Hills area has more than doubled. We are losing business because of all the new campgrounds that were built. Do we have the right to ask city and county officials not to give building permits to new campgrounds? No one has the right to stop a business from being built as long as it follows city and county ordinances-whether it is the largest merchandiser in the world, or a physician's complex, a horse arena or a campground.

During Christmas vacation, we visited relatives in the Phoenix-Chandler area. Chandler has a new Wal-Mart in a beautiful shopping complex. All the stores in the complex, including Wal-Mart are built in the Southwest adobe design. Chandler welcomes new businesses. As a result, they are one of the fastest growing places in the United States. There are many growth spurts in outlying areas around Phoenix and Tucson. We drove past Pueblo and Colorado Springs, CO and they also have many developments outside their cities. A local real estate person that has been selling Rapid City property for over 30 years said that this year was the slowest he has ever seen. Real estate sales did not jump back after Ellsworth announced that it would not close. We need all the help we can get so Rapid City begins growing again. A new Wal-Mart store would be a good start.

The Aberdeen City Council turned down a new Wal-Mart in their city. The voters in that city overturned that decision and overwhelmingly approved the Wal-Mart by an 81% vote. It cost taxpayers a lot of money for the special election. Will Rapid City voters have to waste money for a special election of our own?

Sincerely,  
Peg & Bob Beyers

**Subject:** Walmart

As a private pharmacy business owner, I am opposed to the new Walmart expansion. I think that this new facility can only hurt local businesses. I realize this is a fairly selfish reason, and I'm not saying I begrudge economic growth. I just think we should be concerned about the type of growth and where the proposed growth is occurring. Please consider all comments and make a fair decision based on facts

Thanks, Jo Prang, VP of Operations  
Medicap Pharmacy of the BLack Hills

City Council, Rapid City

To Whom It May Concern:

I and my wife are lifelong residents of Rapid City, SD. We currently live in Lincoln, NE while my wife finishes her education. We plan on returning to Rapid City in the near future.

I have been very interested in the debate concerning Wal-mart that I follow through the Rapid City Journal on line. I wish you to consider seriously during your meeting the acceptance of Wal-mart's plan and proposed location. As future young business people with families in the community, this is important to us, not only for potential employment, but also for purchasing ability. While visiting home recently over the holidays we toured and observed the proposed site. I, my wife nor other family members do not find it objectionable or out of place.

I sincerely hope that you would consider favorably this progressive move.

Sincerely,

Michael Hagen  
830 Rutland Drive, 614

Loren and Debra Legge  
3167 Moon Meadows Dr.  
Rapid City, SD 57702  
January 27, 2006

Dear Jim Shaw,

We live on Moon Meadows Drive and are very concerned about the increase in traffic that will result from the new proposed Walmart location. We invite you to see for yourself the problems we incur trying to leave our driveway.

Safety is a major concern but also we feel that it is not our responsibility to pay for the improvements that are going to be needed with all the traffic coming from the new housing developments in our area. This is a country road with no shoulders and no guard rails. Also there is no law enforcement of speed limits. Most homeowners on Moon Meadows have similar problems due to the structure of this road.

Thank you for your attention to this matter. Please feel free to come out when you can.

Loren Legge

Rapid City, SD 57702  
January 29, 2006

Dear Jim Shaw, Tom Johnson, Mike Schumacher, Sam Kooiker,  
Deb Hadcock, Karen Gunderson, Olson, Bill Okrepkie,  
Ray Hadley, Ron Kroger, Malcom Chapman, Bob Hurlbut,

In reference to traffic safety concerning the proposed new Walmart, this is our second letter of concern. We are asking council members who favor the new Walmart to call us, and come out here to Moon Meadows and see for yourself. Moon Meadows is already unsafe, and increased traffic on that road due to the new Walmart will make it even more dangerous.

We live off Moon Meadows on North Star Road, one mile west of Hwy 16. If you come out here, try to turn left onto North Star Road to see the first danger. Be sure you stop in the road before you turn, as it is a blind hill from the west and oncoming traffic is not immediately visible.

It is much the same all along Moon Meadows. It is built like a racetrack- curves, blind driveways, no shoulders on the road. Daily commuter traffic goes too fast, the majority ignoring what should be safe speed limits.

Should Walmart be approved, what about the major road improvements needed? What about additional law enforcement? Moon Meadows will become a shortcut to Walmart for all those folks living along Sheridan Lake Road, whose numbers are increasing daily.

In our opinion, Walmart could care less about serious injury and deaths resulting from a poor choice of location- good for Walmart, bad for the community. What happened to Catron? Why isn't traffic to a major box store fed by Catron, instead of dumping it on Moon Meadows? There are lots of better land choices, and because of that, safety should be the primary concern. Who will be held accountable as major wrecks occur that could have been avoided?

The Hwy 16 situation will be a disaster come summer months. There is already a constant flow of traffic there with continuing natural growth.

We hope you can vote this thing down, avoid serious accidents, and not disrupt traffic flow to the biggest industry in South Dakota, tourism. What's wrong with the final decision being: "It just isn't safe! There are better alternative locations!"

*MAYOR, please help with  
this disaster in the making,  
it's A bad location.*

Thank you for your time,

*Tom and Sue Karlen*  
342-0133

**Subject:** Wal-Mart issue

By this time you all must be up to your ears and have heard enough about the Wal-Mart issue....but I'll prevail on you to think about this:

- 1) Free market forces prevail (or should), after all this is a capitalistic society.
- 2) Small home town businesses shouldn't depend on denial of competition to succeed.
- 3) Progress and growth will happen in time, not always geographically where the populace seems to think it should (or in this case, shouldn't).

Listen to your constituents, hear the gripes and be patient with the bitching - then vote to allow Wal-Mart to build.

Thanks for your consideration.

Bev Schlosser (Ward 3)

**Subject:** HIWAY 16 TRAFFIC STUDY

I am not opposed to Wal Mart at Sammis trail although i do believe 5th 7 Catron would be a better place for such a store.

I am vitally interested in the traffic situation as I do intend to live here for the foreseeable future. I believe the traffic study is badly flawed and we have no idea how big of mess will be created.

I would like to see the council get answers to these questions before considering this development:

1: What are the real traffic numbers for highway 16 ? All we have and all I can get from DOT are extrapolated numbers. DOT does not appear to have actual counts but used a single 24 hour count and extrapolates from that.

2: What are the real numbers on highway 16 during the rally ? The counted numbers on I 90 are very large!

3: What will the effect of the S. E. connector be ?

4: The study assumes 15,000 trips a day but no growth in 15 years. How can anyone take that seriously?

5: The study shows the opening of more streets in the area but does not anticipate any new traffic generated by the development that will bring those new streets. How can that be?

6: The study demonstrates the street plan only works if the rearage road is functioning yet the proposed plan gives the developer two years to build the rearage road. Why ??

7: What is the anticipated speed limit on highway 16 and catron blvd.

8: What will be the contingency plan if this development happens and the traffic is a disaster? We who live out here will be stuck with a mess. None of the current council members will be affected.

Sincerely,

TpmKrafka

**Subject:** WalMart again

Dear Mayor Shaw & Rapid City Council Members,

A few people who live on Moon Meadows Road signed the appeal against Wal-Mart. When we saw the list, we decided that you need to know the history of Moon Meadows Road. Moon Meadows Road was built through the pasture of Bob Taylor (now deceased) against his wishes. Pennington County built the road through the pasture at the request of residents on Moon Meadows. They had another way out (to Sheridan Lake Road and then into Rapid City), but they wanted a handier and quicker way to get to town via Highway 16. So even though Bob Taylor did not want the road through his pasture, the county built it. In other words, he gave up part of his land for the residents of Moon Meadows. Now a few of the people of Moon Meadows are afraid they will have too much traffic on "their" road if Wal-Mart builds across Highway 16. Isn't that being selfish? A man gave up his land for them, but they are not willing to share "their" road with others. When Catron Boulevard was built, it took a lot of traffic off Moon Meadows. We see the traffic patterns out here and really feel that most people will use Catron to Highway 16 instead of Moon Meadows. Moon Meadows should not be an issue.

We lived and farmed in eastern South Dakota on the prairie for 20 years. The state of South Dakota is mostly prairie. Why is there such concern over preserving a miniscule piece of prairie land when most of South Dakota is prairie? The land also faces east and does not have the mountain view that everyone seems to prize. If the "appeal" people think we should not develop land on Highway 16, please remove the new forest service building, the Orthopedic complex, the fire station (we obviously do not need fire protection if new development is not allowed on Highway 16), and the new houses on the east side of the highway. If the "Appeals" people really and truly are concerned about the Black Hills, perhaps they need to look at projects that actually are being developed in the Black Hills and not on the edge of the Hills as is Wal-Mart. There are at least three major projects near Keystone that are destroying mountains.

We have owned and operated our campground for 12 years. Every year, our income goes down (high gas prices, bus tours and airline travel are more popular) and taxes and insurance goes up. The land along Highway 16 needs to have year-round businesses on it in order to pay the high property taxes. Most of the new buildings on Highway 16 are tax-exempt entities like churches and the Orthopedic Center. So what is happening is that tourist-related businesses that are open only 5-6 months a year are taking the major hit of property taxes. If we remain a campground when Wal-Mart is developed, it will help our business. If we sell the property to a developer that builds a year-round business, the sales tax will help Rapid City. Either way is good for Rapid City and us. Stopping development is not good for us (and other tourism businesses) or Rapid City.

We really do not understand why some council members feel that a four lane highway with a rearage road behind the Wal-Mart building will not handle traffic effectively. Tourists drive **THROUGH** Rapid City to get to Highway 16. If the roads through town handle traffic ok, shouldn't a four lane highway suffice? What exactly do you think is needed??—a double decked highway with “through” traffic on top, and Wal-Mart traffic on the bottom? Traffic travels too fast along Highway 16 anyway and needs to be slowed down.

The Rapid City Journal printed letters from citizens who wanted Wal-Mart built (Sunday, February 12<sup>th</sup>). We agree with them. If this issue has to go to a vote of the people, we believe it will pass by the same high percentage that it did in Aberdeen. This issue has been discussed long enough. Please do the sensible thing and vote **FOR** rezoning to commercial.

Sincerely,  
Bob & Peg Beyers  
TeePee Campground

**Subject:** FW: Calls For Service for Wal Mart

Dear Council Members:

Low Papendick discussed the statistics from the Police Department showing the crime at Wal-Mart. Some of you may have seen this but he felt that the new members should be made aware of this. The attachment is a graph demonstrating the top 5 calls for service.

Thank you.

Casey Peterson

**Subject:** Calls For Service for Wal Mart

Hello Lew,

Attached is a report (PDF document) showing the calls for service at the Top 5 Locations in Rapid City. Wal Mart (1200 N LaCrosse St) is listed as number two compared to the four other locations. For each place, the Top 5 Call Types is also shown so you can see what type of activity is occurring at these locations.

For your convenience, I've listed below what some of the abbreviations stand for:

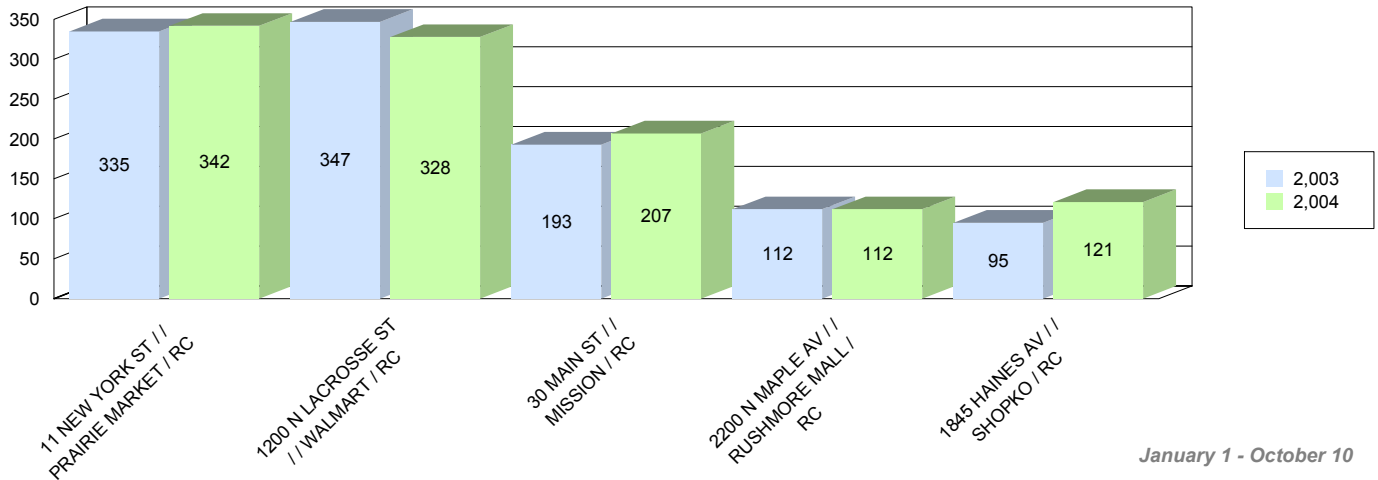

SHOP	Shoplifting
DRUNK	Drunk Call
DIST	Disturbance
ASLT	Assault
TRES	Trespassing
ACC	Accident
911	911 Hang-up Call
ACCHR	Accident Hit & Run
UNSUB	Unwanted Subject
VCOMP	Vehicle Complaint
SUSP	Suspicious Person

As you can see, out of a total of 91, 356 calls received during the two year period of 2003 and 2004 (January 1 to October 10), you'll find that Wal Mart had 677 calls or .7% of the total number of calls. While this is high, you must also consider the amount of traffic which frequents this store and the surrounding area on LaCrosse Street - this area is definitely a "high traffic" area. Anyway, hope this is what you need. If you have any questions, give me a call and I'll be glad to help.
