For purposes of this section, the two hour period continues to run if the vehicle remains parked on either side of the same street, within the same block it was originally parked, unless the vehicle has been gone from the area for more than two hours.~~

~~Each additional two hour period after the first violation between 8:00 a.m. to 5:00 p.m. on the same day, shall not constitute a separate violation, unless the vehicle has been moved. The owner or operator of any vehicle in violation of this section must have his or her payment to the City Finance Office within 72 hours from the time the notice of violation was attached to the vehicle. If the payment is not received by the City Finance Office within 72 hours of the violation, a late fee of \$10 shall be added to the penalty.~~

10.44.010 Meter parking zone established.

The City establishes a meter zone in which the regulation of on-street parking shall be through the use of parking meters. The City Council shall adopt, by resolution, a map showing the location and maximum parking time of all meters within the zone.

A. *Boundaries.* The boundary of the meter zone includes all on-street parking, ~~which is located outside the two-hour zone described in §10.44.010,~~ on the east side of West Boulevard between Saint Joseph Street and Omaha Street; on Ninth Street between Columbus Street up to and including the block located immediately north of Main Street; Mt. Rushmore Road between Omaha Street and Columbus Street; Seventh Street between Columbus Street and Omaha Street; Sixth Street between Columbus Street and Omaha Street; Fifth Street between Columbus and Omaha Street; Fourth Street between Columbus Street and Main Street; Third Street between St. Joseph Street and Omaha Street; Second Street between Kansas City Street and ~~Main~~ Omaha Street; Apolda Street between Mt. B. *Placement and Operation.* Parking meters installed in the meter zone shall be installed near the curb adjacent to individual parking spaces described in this chapter. Each parking meter shall show a signal that the space adjacent to which it is installed is, or is not, legally in use and when operated shall indicate the duration of legal parking time remaining. Upon expiration of such period of time, the meter shall indicate illegal or overtime parking. Lines shall be painted upon the curb adjacent to each parking meter and upon the street, designating the parking space for which the meter is to be used, and each vehicle shall park within the lines. It is unlawful to park any vehicle across any such line, or to park a vehicle in such a position that it shall not be entirely within the space designated by the lines.

C. *Purchase of Time.* When a motor vehicle is parked in any space adjacent to which a parking meter is located, the owner or operator of such vehicle shall immediately deposit, or cause to be deposited, the proper fee in such meter. Failure to immediately deposit the proper fee between the hours of 8:00 a.m. and 5:00 p.m. Monday through Saturday, Sundays and federally recognized holidays excluded, shall be a violation of this section. It shall also be a violation of this section for the owner or operator of a motor vehicle to permit the vehicle to remain in any parking space adjacent to a parking meter when such meter is showing illegal or overtime parking. As a courtesy, the first 15 minutes at all meters may be free of charge. The parking meters will have a button that may be pressed free of charge which will then indicate 15 minutes of legal parking. The City Council shall adopt by resolution a schedule establishing the fees for all meters within the City. Payment for parking meters shall be made in United States currency with \$.25, \$.10 or \$.05 denomination coins or pre-paid parking cards or tokens described in sub-section (D) of this section.

D. *Parking Cards and Tokens.* The City may make available pre-paid parking cards or tokens for use in all City parking meters. E. *Exemptions.* Faculty and Staff of Dakota Middle School, who possess a staff parking permit, will be allowed to park in the metered spots along Columbus Street at an amount to be agreed upon between the school district and City.

F. *Penalty.* The owner or operator of any vehicle who violates this section shall be subject to a penalty of \$5. Each two hour period the violation remains shall constitute a separate violation. The owner or operator of any vehicle in violation of this section must have his or her payment to the City Finance Office within 72 hours from the time the notice of violation was attached to the vehicle. If the payment is not received by the City Finance Office within 72 hours of the violation, a late fee of \$10 shall be added to the penalty.

10.44.020 Parking meters – opening or damaging prohibited.

It is unlawful for any unauthorized person to open, or for any person to deface, injure, tamper with, or willfully break, destroy, or otherwise impair the usefulness of any parking meter, or to attempt to avoid the fee by use of a slug or other similar device. Any person violating this section shall be subject to criminal prosecution and upon a conviction or guilty plea, to the general penalty provision contained in §1.12.010 of the RCMC.

10.44.030 Off-street leased parking areas.

The City owns several off-street parking areas in which it leases parking spaces to private individuals and businesses. The City Council shall establish, by resolution, rates for the leased lots. The leased parking areas covered by this section are as follows:

The owner or operator of any vehicle who violates this section shall be subject to penalty of \$25. Each day the violation occurs or continues shall constitute a separate violation. The owner or operator of any vehicle in violation of this section must have his or her payment to the City Finance Office within 72 hours from the time the notice of violation was attached to the vehicle. If the payment is not received by the City's Finance Office within 72 hours of the violation, a late fee of \$10 shall be added to the penalty.

10.44.040 Residential parking permits.

The City recognizes that many people live in the area covered by the parking zones contained in §10.44.010 and ~~§10.44.020~~. The City further recognizes that encouraging residential development in the City's core will benefit the entire community. In order to encourage residential development in the downtown area, permanent residents living at an address located within the two hour parking or meter parking zones will be eligible for a Residential Parking Permit. There shall be two classes of Residential Parking Permits. Owner occupied residences will be able to obtain an annual permit for \$15 a year. All other eligible persons will be able to obtain a monthly pass for \$40 a month.

A. *Eligibility.* Any person whose permanent residence is located at an address which is within the boundaries of the zones created by §10.44.010 ~~or §10.44.020~~ and does not have any outstanding parking fines or permit fees due and owing to the City is eligible for a Residential Parking Permit. Each eligible person is limited to one Residential Parking Permit. The \$15 annual permits for owner occupied homes are limited to one person per household. If there are additional people residing at the residence, they may obtain the \$40 monthly permit. In order to obtain the permit the person will be required to fill out a written application with the City's Finance Office. The application shall include, the name of the applicant, their permanent address and the vehicles make, model and license plate number.

B. *Information Required.* In order to receive a permit the applicant will need to provide a valid driver's license, a valid car registration and written proof of permanent residency within the boundaries of ~~one of the~~ meter ~~two~~ zones. Written proof of residency shall include a rental agreement, property tax bill and a current utility or telephone bill. The vehicle must be registered in the name of the applicant. If the applicant is applying for the owner occupied permit, they must provide a property tax bill, or other equivalent information from official records, to demonstrate that they own their residence and actually reside there.

C. *Cost.* The cost for a residential permit shall be \$15 annually for applicants who own their residence and \$40 a month for all other applicants. The \$15 permits shall be paid in full at the time the application is submitted, all other permittees shall pay at least their first month's fee with their application. If the fee is not paid in full, the fee for all subsequent months shall be paid on or before the first of the month. If the fee is not paid by the first of the month, a \$10 late charge shall be added to the fee for that month. Applicants who apply for a permit after the first of the month shall pay the full fee for that month. If the applicants permit application is rejected, the fee will be returned to them, minus any outstanding fines, penalties or fees owed to the City.

D. *Permit.* If the applicant meets the criteria, and pays the required fee, the City shall issue them a Residential Parking Permit. At the time the permit is issued, the staff and applicant will designate the three closest street blocks to the permittee's residence, excluding Main Street between Ninth Street and Fourth Street, St. Joseph Street between Ninth Street and Fifth Street and Seventh, Sixth and Fifth Streets Between Main Street and St Joseph Street. ~~which are outside the two-hour zone.~~ The street and block address number will be identified on the permit. Each permit shall be assigned a unique number. The permit must be affixed to a conspicuous place on the vehicle's front windshield. The permits are issued to both the individual and vehicle. Permits may not be transferred between vehicles. The permittee will be allowed to park in the areas designated on the permit without paying a meter charge. The permit will not cover the permittee if they park outside of the areas designated on the permit. Issuance of a permit under this section does not guarantee or reserve a parking space for the holder of the permit within the designated area. The permit's sole purpose is to provide downtown residents a place to park without having to pay a meter fee within the area designated on their permit. It does not exempt the permittee from any other traffic or parking rules, regulations or ordinances. A permittee shall completely remove the permit upon moving from their current residence or upon termination or expiration of the permit.

E. *Renewal and Replacement.* All Residential Permits must be renewed annually on June 1st of each year, regardless of the date of issuance. If a permittee sells or has their vehicle stolen or destroyed, they may receive a replacement permit. An applicant for renewal or replacement will have to provide all documentation required for issuance of the original permit. No permit will be issued to any person who has outstanding parking fines or fees still due.

F. *Penalty.* Any person who obtains a permit to which they are not legally entitled, transfers the permit to another vehicle or person, continues to display the permit after they have moved from the residence for which it was issued, continues to display the permit after it has been terminated or expired or who otherwise displays the permit when they are not legally entitled to do so is in violation of this section. Any person violating this section shall have their permit terminated and be subject to criminal prosecution and upon a conviction or guilty plea, to the general penalty provision contained in §1.12.010 of the RCMC.

10.44.080 General provisions applicable to all zones and other regulated parking areas.

Nothing in this chapter shall be construed to create off-street parking where it does not already exist or where it is currently prohibited, nor does it prevent the City Engineer, or their designee, from prohibiting parking on certain streets for reasons of safety or in order to comply with other rules, regulations or laws.

10.44.090 Authorization to establish special parking police and requirement that notice of violation be attached to the vehicle.

A. The Chief of Police shall have the authority to designate special parking police and supply the special parking police with identification and with the necessary forms for notice of parking violations pursuant to this chapter.
