No. 10VR004 - Vacation of Right-of-way

ITEM 26

The Downtown Rapid City Economic Development Corporation has submitted two Vacation of Right-of-way applications as a part of the Main Street Square project which includes the construction of an outdoor recreational center at the northeast corner of Main Street and Sixth Street.

The property is located at the northeast corner of the intersection of Main Street and Sixth Street. Currently, a sidewalk, power lines to serve street lights and seven parking spaces are located within this area of right-of-way.

STAFF REVIEW:

Staff has reviewed the Vacation of Right-of-way request and has noted the following considerations:

Utilities: All of the private utility companies have submitted written documentation indicating concurrence with the vacation request. As previously noted, power lines to serve City street lights are located within the area of right-of-way to be vacated. As such, staff recommends that prior to City Council approval, construction plans be submitted for review and approval showing the relocation of the power lines to right-of-way or a utility easement must be secured for the current location of the power lines.

Sidewalk: The applicant has submitted a preliminary plan for the Main Street Square to be constructed within this area of right-of-way and on the adjacent property owned by the City and currently developed as a public parking lot. The preliminary plan identifies that a sidewalk connection will be provided as a part of the Main Street Square project to insure pedestrian access along this section of Sixth Street.

Staff recommends that the Vacation of Right-of-way request be approved with the stipulation as noted above.
