Re: Powertech (USA), Inc. Application for Large Scale Mine Permit – City of Rapid City’s Petition to Intervene

Dear Mr. Cepak:

Please find the enclosed *Petition to Intervene* and *Election of Participation* filed on behalf of the City of Rapid City. These documents have been filed in regard to the application submitted by Powertech for a large scale mining permit, currently pending before your department. With this filing, the City seeks to gain intervener status under option (C) of the *Election of Participation*. Specifically, the City requests that Rapid City Resolution No. 2013-083, a copy which has been provided, be included in the official record as the City’s official position on this mining application.

If you have any questions or concerns, feel free to contact me directly.

Sincerely,

Ryan Soye
Assistant City Attorney

**STATE OF SOUTH DAKOTA
DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES
BOARD OF MINERALS AND ENVIRONMENT**

|---|-----------------------|-----------------------|
| IN THE MATTER OF POWERTECH (USA), INC. APPLICATION FOR LARGE SCALE MINING PERMIT |))))) | PETITION TO INTERVENE |
|---|-----------------------|-----------------------|

COMES NOW, the City of Rapid City, by and through the undersigned attorney, and submits this *Petition to Intervene* in the above-captioned matter, which is currently pending before the Board of Minerals and Environment, and states as follows:

The City understands Powertech has requested approval of an in situ mining project permit to recover uranium from a site approximately 13 miles north-northwest of Edgemont, South Dakota. Powertech has indicated in its application the proposed project involves extracting uranium by injecting groundwater fortified with oxidizing and complexing agents into a series of injection wells. After the uranium is removed, the groundwater will be refortified with oxygen and carbon dioxide and recirculated. In order to achieve this process, Powertech proposes to utilize groundwater resources throughout the area. The most significant water resource to Rapid City is the Madison Aquifer, which serves as the City's primary water supply.

The use and recirculation of this groundwater has the potential to directly impact the citizens of Rapid City. The Rapid City Common Council has been provided with a great deal of information indicating the potential risks of the proposed mining project. It appears there is a very real danger that approval of this application may result in polluting, impairing, or destroying the air, water, or other natural resources surrounding the mining site. Any contaminants that invade the land and aquifers have the potential to adversely impact the health, safety, and general

welfare of nearly 70,000 Rapid City citizens for decades to come. The City has a real interest in protecting the health, safety and general welfare of its citizens, and approval of this application has the potential to impair and impede the City's ability to protect that interest.

The City's goal in seeking intervention is only to ensure the official position of the City Common Council, as reflected in Rapid City Resolution No. 2013-083, is made part of the official record in this matter. The City does not intend to request any change or delay in the established *Procedural and Scheduling Order*, participate in prehearing discovery, or provide live testimony, as indicated by its *Election of Participation*. As such, no party will be adversely impacted by this Petition to Intervene.

For the aforementioned reasons, the City respectfully requests this Petition be granted.

Dated this 11th day of September, 2013.

RESOLUTION NO. 2013-083

A RESOLUTION EXPRESSING GRAVE CONCERN ABOUT THE IN SITU MINING OF URANIUM BY POWERTECH IN CUSTER AND FALL RIVER COUNTIES.

WHEREAS, Powertech Uranium Corp. has submitted applications to the South Dakota Water Management Board for permits to use water from the Madison and Inyan Kara Aquifers to conduct in situ mining of uranium in Custer and Fall River Counties in the Black Hills of South Dakota; and

WHEREAS, In situ mining, or in situ recovery involves pumping solutions incorporating water from the aquifers into an ore body through wells which will then circulate through the porous rock and recovering the minerals from the ground by dissolving them and pumping the solution containing the ore to the surface where the minerals can be recovered.

WHEREAS, hearings on Powertech's water permit applications will be held by the South Dakota Water Management Board in Rapid City at the beginning of October of 2013; and

WHEREAS, the City of Rapid City obtains a majority of its drinking water from the Madison Aquifer; and

WHEREAS, the safety of the water in the Madison Aquifer is of utmost importance to the City of Rapid City; and

WHEREAS, due to the unanswered questions regarding the safety of the community's water supply, the Common Council of the City of Rapid City believes that the proposed in situ mining of uranium in the Black Hills poses an unacceptable risk to the primary source of Rapid City's drinking water.

NOW THEREFORE, BE IT RESOLVED, by the City of Rapid City that due to the potential risk to the Madison Aquifer the City expresses grave concern about the proposed in situ mining of uranium in the Black Hills.

Dated this 19 day of August, 2013.

CITY OF RAPID CITY

Sam Koonker

STATE OF SOUTH DAKOTA
DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES

BOARD OF MINERALS AND ENVIRONMENT

IN THE MATTER OF POWERTECH)
(USA), INC. APPLICATION FOR) ELECTION OF PARTICIPATION
LARGE SCALE MINING PERMIT)
(Dewey-Burdock Project))

TO: All Persons who filed Petitions to Intervene in the above captioned matter:

You filed or signed a petition or sent comments to the Department of Environment and Natural Resources regarding the Powertech large scale mine permit application currently pending before the Board of Minerals and Environment. To clarify your intent, you must elect: A) to participate as a full party in the formal contested case proceeding, including presenting testimony subject to cross examination, offering exhibits, cross examining other witnesses, making and defending objections, addressing legal argument, and having the option to appeal to the courts if desired; or B) provide sworn testimony only during the public comment period of the contested case proceeding subject to cross examination by the parties and questioning by the Board; or C) rely on the information you may have already filed with the Department. Election of options B or C will waive some of the rights, and relieve you of some of the obligations, you have if you participate as a full party under Option A.

YOU MUST RETURN THIS FORM TO MIKE CEPAK, DENR

MINERALS AND MINING PROGRAM, ON OR BEFORE JUNE 14, 2013.

FAILURE TO COMPLETE AND RETURN THIS WILL BE CONSTRUED AS
AN ELECTION TO PROCEED UNDER OPTION B. A PERSON MAY
CHANGE THEIR PARTICIPATION STATUS AS PROVIDED IN THE
BOARD'S PROCEDURAL ORDER.

_____ (A) I wish to participate as a full party in this proceeding by presenting testimony subject to cross examination, offering exhibits, cross examining other witnesses, making and defending objections, addressing legal argument, and having the option to appeal to the courts if desired. I understand that if I am appearing on my own behalf, I do not need to be represented by a lawyer, but that all corporations, partnerships, nonprofit associations, and other legal entities must have a lawyer represent them if they participate as a party.

_____ (B) I wish to offer my sworn testimony at the beginning of the contested case hearing. I understand that due to the large number of parties, I may be limited to 10-15 minutes. I understand my testimony will be subject to cross examination and I will not have all the rights nor obligations of a full party.

X (C) I wish to rely on the petition or any other comments I have already submitted to the Department. I do not wish to testify or participate as a full party in these proceedings.
