RE: Storm Drainage Utility Task Force

As the staff members of the Public Works Department move forward with developing a Storm Drainage Ordinance and storm drainage fee structure, I would like the opportunity to run staff recommendations through a task force prior to bringing the items forward for Public Works Committee and City Council consideration. I envision a seven (7) member citizen task force comprised of business owners, homeowners, developers and builders. The Task Force would review and offer guidance on the Storm Drainage Ordinance and the Fee Structure Resolution including recommended funding levels for storm drainage projects and maintenance staff and equipment.
