Ad hoc Sign Committee

Re: Regulating Electronic Signs in Historic Districts and the environs and on Individually Listed Historic Properties

Dear Ad hoc sign committee members:

The Historic Sign Review Committee requests that the Ad Hoc Sign Committee consider regulating the on-premise and off-premise electronic signs located in the Historic Districts and their environs and on Individually Listed Property, limiting them to a static message for six seconds. The Historic Sign Review Committee believes that electronic signs are inconsistent with historic properties and at a minimum, should be restricted to static messages for a determined length of time.

Thank you for your consideration.

Sincerely,

Historic Sign Review Committee:

Kyle Blada, Chairman

Jim Jackson, Vice-Chairman

Lee Geiger

Clancy Kingsbury

Pat Roseland
