Rapid City, South Dakota 57701-2724

### MEMORANDUM

TO: Legal & Finance Committee

FROM: Marcia Elkins, Director  
Growth Management Department

DATE: July 27, 2005

RE: Purchase of ArcView maintenance software

Staff requests authorization for Mayor and Finance Officer to sign the quote for the purchase of ArcView maintenance software in the amount of \$47,620.46 for the purpose of providing current software to the GIS ArcView users.

Currently the Pennington County-Rapid City Geographic Information Systems Division pays for the maintenance of a number of copies of software for creating, editing, and viewing GIS data. Users who create and edit data have access, via the City/County computer network, to nine (9) software licenses. These offices include the GIS Division, Growth Management Department, Transportation Planning Division, Engineering Division, Director of Equalization, and Emergency Services Communications Center.

Those who need to view data or make hardcopy maps, beyond the capability of RapidMap, have individual copies of a more limited version of the GIS software called ArcView. At present, 62 copies of this particular version of the software are maintained. Also, there are five (5) copies of ArcView on the Rapid City Police Department network that can be accessed by users connected to that network.

**Staff Recommendation:** Staff recommends authorization for the Mayor and Finance Officer to sign the quote for the purchase of ArcView maintenance software in the amount of \$47,620.46 for the purpose of providing current software to the GIS ArcView users.

QUOTATION #25160851

Please find the attached quotation for your forthcoming software maintenance term. As you know, keeping your maintenance current entitles you to exclusive benefits that may include technical support, software upgrades, and User Conference registrations. If you choose to discontinue your maintenance, you will become ineligible for maintenance benefits and services. All maintenance fees from the date of discontinuation will be due and payable if you decide to reactivate your coverage at a later date.

This quote has been prepared using new ArcGIS 9.1 licensing guidelines. At 9.1, ArcInfo will include the functionality and data from ArcScan, ArcPress, Maplex, and StreetMap; ArcEditor will include the functionality and data from ArcScan, ArcPress, and Streetmap; ArcView will include the functionality and data from ArcPress and Streetmap; ArcGIS Engine will include the functionality and data from StreetMap; and ArcGIS Server will include the functionality and data from StreetMap. Due to these changes, these extensions are no longer itemized in maintenance quotes because coverage will be included with the maintenance fee for the core product.

Customers who have multiple copies of some ESRI products may have the option of supporting some of their licenses with secondary maintenance. Secondary maintenance entitles users to software upgrades and technical support through a primary license. Users must support at least one primary license for every ten copies of each version of a product (e.g., ArcView 3.x licensing is regarded as separate from ArcView 9.x). Please contact Customer Service to find out more about the availability of secondary maintenance.

If you are using ESRI products that are at previous versions, or if you have software that is not currently covered by one of our programs, please contact us for information about the different options that are available to you.
