No. 02SV015 - Variance to the Subdivision Regulations to allow lots twice as long as they are wide and to waive the requirement to install pavement, curb and gutter, water, sewer, street light conduit and sidewalks ITEM 49

GENERAL COMMENTS:

The applicant has submitted a Subdivision Regulations Variance request to allow lots twice as long as they are wide and to waive all street improvements along Skyline Drive. The applicant has also submitted a Preliminary and Final Plat to subdivide the subject property into 15 residential lots. The property is located approximately 150 feet south of the intersection of Skyline Drive and Flormann Street on the south side of Skyline Drive. (See associated item #02PL028.)

STAFF REVIEW:

Staff is recommending that the associated Preliminary and Final Plat be continued to the May 9, 2002 Planning Commission meeting to allow the applicant to submit a revised geotechnical evaluation, along with a detailed grading and drainage plan and additional topographic data. The information is necessary in order to determine if buildable areas will exist on each proposed lot. The plat could potentially be revised if necessary to provide buildable areas if the above referenced information supports the adjustment. As such, staff is recommending that the Variance to the Subdivision Regulations be continued to the May 9, 2002 Planning Commission meeting to be heard in conjunction with the plat.
