8. A Temporary Use Permit shall be obtained prior to initiation of the event;
9. All electrical wiring shall comply with the applicable Uniform Building and Electrical Codes;
10. The park grounds shall be cleaned daily and shall be continually kept clear of debris and trash;
11. Security shall be provided for the duration of the special event and a weather radio shall be on-site and monitored continually;
12. The proposed event shall be allowed to operate for no more than two event days per year; and,
13. The SDCL 11-6-19 Review for a Summer Music Festival shall be valid for three years.

GENERAL COMMENTS: This SDCL 11-6-19 Review request has been submitted to allow a Christian Music Festival to be held in the Flood Hazard Zoning District in Memorial Park. The proposed festival will be located at the park on July 16 and 17, 2005 with setup and take down on July 15 and 19, 2005.

The festival will include concerts by a number of musical groups as well as a number of food vendors and other entertainment. The submitted site plan shows a fun zone area which will consist of various outdoor activities. The site plan also shows 42 portable toilets with two being handicap accessible. The site plan also delineates the locations of tents for eating, praying, sound boards, corporate sponsors, non-profit ministries, product sales, spotlights, stages, artists' autograph area and first aid. The applicant has stated that the expected attendance for the festival over the two day time period is 15,000 people.

South Dakota Codified Law 11-6-19 states that "...whenever any such municipal council has adopted a comprehensive plan, then no street, park or other public way, ground, place, space, no public building or structure, no public utility, whether publicly or privately owned, if covered by the comprehensive plan or any adopted part thereof, shall be constructed or authorized in the municipality or within its subdivision jurisdiction until and unless the location and extent thereof shall have been submitted to and approved by the Planning Commission". The proposed site is publicly owned property. In addition, the property is located within the area covered by the Rapid City Comprehensive Plan requiring that the proposed expansion be reviewed and approved by the Rapid City Planning Commission as a part of a SDCL 11-6-19 Review.

STAFF REVIEW: Staff has reviewed the proposed SDCL 11-6-19 Review and has noted the following major issues:

Fire Code: The Fire Department has stated that the petitioner must submit complete plans for all proposed tents at the time a Temporary Use Permit application is submitted. Additionally, a tent checklist form and a tent inspection must be completed prior to initiation of the event and adequate access for Fire Department apparatus must be continually maintained for the duration of the special event.

Evacuation Plan: The standards for review for a SDCL 11-6-19 Review located within the Flood Hazard Zoning District (Section 17.28.040 (D) of the Rapid City Municipal Code) require that an evacuation plan be developed and posted when structures are proposed within the Flood Hazard Zoning District. Staff is recommending that prior to issuance of a Temporary Use

Permit for the festival, a copy of this plan be submitted for review and approval.

Ongoing Security/Maintenance: The safety of the special event participants and the maintenance of the public park are a significant concern. Staff is recommending that the stipulations of approval that requires the applicant to provide security for the duration of the special event and that special event staff be responsible to ensure that the park grounds will be kept free of trash and debris. The applicant has indicated that they will provided a minimum of two Rapid City licensed security personnel on site from 2:00 PM on the 16th through 9:30 PM on the 18th. In addition, because of concerns associated with the close proximity of Rapid Creek, staff is recommending that a weather radio be located on-site and monitored continually during the event.

Hydraulic Floodway: The submitted site plan indicates that all proposed structures to be located outside of the hydraulic floodway. A Special Exception to the Floodplain Development Ordinance must be obtained to allow any structures located in the hydraulic floodway. Staff is recommending that all requirements of the Floodplain Development Ordinance be met at all times.

Staff is recommending that the SDCL 11-6-19 Review request be approved with the previously stated stipulations.
