

**Statement of Intended Use
for
Roosevelt Avenue Sewer Main Extension**

Applicant: Tim Rensch
1111 Hyland Drive
Rapid City, SD 57701

Engineer: CETEC Engineering Services, Inc.
Greg Wierenga
1560 Concourse Drive
Rapid City, SD 57703

Date: August 28, 2009

Tim Rensch proposes to construct a new public sewer main in Roosevelt Avenue near the intersection with Hyland Drive. The new 8" sewer main will connect to an existing sewer in Roosevelt Avenue, about 250 feet south of the East St. Patrick Street intersection. The new main will extend south in Roosevelt Avenue approximately 220 feet. The work will include a new manhole at the Hyland Drive intersection and will include a sewer main termination cleanout about 60 feet south of Hyland Drive.

The proposed main will provide for a sewer service connection for Lots 25-26, Ridge Park Subdivision No. 4 (1111 Hyland Drive) owned by Mr. Rensch. This property is currently served by an on-site septic tank/drainfield disposal system. The septic system will be abandoned, and a new service line will be constructed to connect to the new sewer main in Roosevelt Avenue.
