

Engineering Services Request
To

Record Water and Sewer Main Utility Easements

For

Proposed Water and Sewer Mains Along Palo Verde Drive
City Project No.: W06-1564

DESCRIPTION

This is a Request for Council Authorization to record water and sewer main easements for proposed water and sewer mains along Palo Verde Drive. The residences in this area currently derive City water and sewer service from a private common sewer service line and private long water service lines. The private common sewer service and long water service lines don't meet City Standards, which require individual water and sewer services for each residence and water and sewer mains to front the property being served. The easements will provide the residences the opportunity to construct public water and sewer mains and become compliant with City Standards.
