Please find attached the document to advertise for bids to repair the roof on the DANO screening building. This item was not budgeted in the 2008 Solid Waste Division Budget. If you have any questions, please do not hesitate to call me at your convenience.

Department 7103 Material Recovery Facility Operations

The Dano screening building roof has experienced significant damage from the corrosive environment. Pictures are available, an on site tour is recommended and repair is absolutely needed and must be completed this spring and summer. Corrosive damage significantly accelerated in 2007. The estimated cost of \$75,000 is not a budgeted item in the 2008 budget.
